Public Health Legislation from the 2004 California Legislative Session

Prepared by Joe Rois, March 2004
Updated by Pam Willow, October, 2004

Legislative Council,
Alameda County Public Health Department
Purpose

This document was created to serve as a reference guide for Alameda County Public Health Department (ACPHD) staff and community members. It provides a brief summary of all public health related legislation considered during the 2004 session of the California State Legislature and is organized by Divisions and the Department’s strategic directives (shelter, safety and transportation).

The intent of this document is to provide you with background on existing legislation, to help you identify gaps requiring additional legislation, and to motivate you to become active in the legislative process. A more detailed description of all included legislation can be found at www.leginfo.ca.gov, which was the main source for this document and the bill summaries.

Definitions

The final status of each bill will be listed as one of the following:

- **CHAPTERED** – A chaptered bill is one that was passed by the legislature, delivered to the governor, and signed into law by the governor.
- **VETOED** – A vetoed bill is one that was passed by the legislature, delivered to the governor, and vetoed by the governor. This bill did not become law.
- **All others** – Any other status listed other than chaptered or vetoed indicates that the bill did not make it through the legislature and was not delivered to the governor.

Legislative Council

This document was prepared under the auspices of the Alameda County Public Health Department Legislative Council. The Legislative Council is comprised of eight active members from the following divisions and areas: Administrative Services, Community Health Services, Communicable Disease Control & Prevention, Emergency Medical Services, Family Health Services, Public Health Nursing, the Office of AIDS, and the Office of the Director. The mission of the Council is to raise awareness of public health issues throughout Alameda County and to develop and implement a locally focused, strategic legislative plan for ensuring that public health policies and programs are based on community needs and interests. We encourage you to participate in the legislative process by helping to shape the legislative priorities of the department, by encouraging the department to adopt a position on legislation, and by developing legislative proposals. You are also welcome to attend one of the Council’s bi-weekly meetings to observe the Council’s process. For additional information about the Legislative Council contact Pam Willow, the Legislative Council Coordinator, at 208-5905 or Pam.Willow@acgov.org or visit us on the web at http://www.acgov.org/publichealth/.

Feedback

We would appreciate any feedback on the usefulness of this document and how it can be improved upon in the future. Please forward any questions or comments to Pam Willow, the Legislative Council Coordinator, at 208-5905 or Pam.Willow@acgov.org.

Bates

**Controlled substances: Ecstasy (MDMA: XTC)**
Existing law classifies controlled substances into 5 schedules and places the greatest restrictions and penalties on the use of those substances placed in Schedule I. The drug 3,4-Methylenedioxymethamphetamine, also known as MDMA, XTC, or Ecstasy, is a psychoactive drug possessing stimulant and hallucinogenic properties that is not classified within any of the schedules under the state controlled substances law, but is classified as a Schedule I drug under the federal controlled substances law. This bill would classify the drug 3,4-Methylenedioxymethamphetamine, also known as MDMA, XTC, or Ecstasy, as a Schedule I controlled substance, unless it is contained in a drug product approved pursuant to federal law, as specified, in which case the substance would be classified as a Schedule III controlled substance.

AB 216 
Chan

**Alcohol: fee: youth alcohol recovery and prevention**
This bill would require the State Board of Equalization to collect a fee, as specified, from any beer manufacturer, distilled spirits manufacturer, beer importer, and distilled spirits importer, with specified exemptions. This bill would require the State Department of Alcohol and Drug Programs to distribute, upon appropriation, the fees to counties to fund alcohol recovery and prevention centers in this state in accordance with a specified allocation methodology. This bill would require that the centers be administered by the counties in which they are established. This bill would require that all fees, and earnings thereon, be expended, upon appropriation by the Legislature, only for purposes of this bill, as specified. This bill would become operative only if no bill from the 2003-04 Regular Session that imposes or increases any surtax on alcoholic beverages is chaptered. This bill would only be operative for years, commencing with 2005, for which the Director of Finance determines that a prudent reserve threshold is met, as specified.

**Status:** From Assembly Com. on Health without further action pursuant to Joint Rule 62(a). (last activity 1/20/04)

AB 292 
Yee

**Interpreters: prohibition on use of children**
This bill would prohibit specified state or local governmental agencies, or public or private agencies, organizations, entities, or programs that receive state funding, from using any child, or permitting any child to be used, as an interpreter, as defined, in any matter involving the business or function of that agency, organization, entity, or program, except as specified, and would require each agency, organization, entity, or program that receives state funding to have in place, and available for inspection, an established procedure for providing competent interpretation services that does not involve the use of children, as defined.

AB 384 
Leslie

**Tobacco products: correctional facilities**
Existing law allows the Director of the Department of Corrections to prescribe and amend rules and regulations for the administration of state prisons. Existing law includes tobacco products among the products that may be authorized for sale to inmates at state prison facilities. Existing law allows the Director of the Department of the Youth Authority to make and enforce all rules appropriate to the proper accomplishment of the functions of the department, including the correction and rehabilitation of young persons who have committed public offenses. Existing law includes tobacco products among the products that may be authorized for sale to inmates at Youth Authority facilities. This bill would prohibit the possession or use of tobacco products by inmates and wards under the jurisdiction of the Department of Corrections and the Department of the Youth Authority. It would require the directors of these departments to adopt regulations to implement this prohibition, and would require that these regulations include an exemption for departmentally approved religious ceremonies. The bill would, in addition, prohibit the use of tobacco products by any person not included among those described above on the grounds of any institution or facility under the jurisdiction of the Department of Corrections or the Department of the Youth Authority, with the exception of residential staff housing where inmates or wards are not present. It would eliminate tobacco products from the list of

Source: www.leginfo.ca.gov
items that may be sold at those institutions and facilities.

AB 539  
**Dentistry: dental hygienists**
Laird  
This bill would require the board to authorize and license a 3rd or 4th year dental student who is in good standing in an accredited California dental school as a dental hygienist. The bill would specify that these students may practice as registered dental hygienists only in dental practices that serve patients insured by Denti-Cal, the Healthy Families Program, or other government programs, or that charge fees based on income. The bill would provide that the licenses of these students would be granted for 2 years, without the ability for renewal, and would automatically be revoked when a license to practice dentistry is received.

**Status:** CHAPTERED (8/25/04)

AB 549  
**School facilities: smoking**
Cohn  
This bill would require a school district to prohibit smoking by any person on any school site where a school facility is being constructed, reconstructed, rehabilitated, or repaired.

**Status:** Referred to Senate Com. on Pub. S. (last activity 2/17/04)

AB 1006  
**The Healthy Schools Act of 2003**
Chu  
Existing law generally regulates pesticide use. Existing law, the Healthy Schools Act of 2000, requires the Department of Pesticide Regulation to promote and facilitate the voluntary adoption of integrated pest management by school districts. This bill, the Healthy Schools Act of 2004, would prohibit all public schools from using the most highly toxic pesticides, as listed, on school property. This bill would provide that its provisions would not apply to antimicrobial pesticides, products deployed in the form of a self-contained bait or trap or as a crack and crevice treatment, agricultural uses or activities undertaken by participants in agricultural vocational education, as specified.

AB 1007  
**Dentistry**
Nakano  
Existing law provides for a Dental Board of California consisting of 14 members, including 8 practicing dentists. Existing law defines a "practicing dentist" to include a faculty member of a dental college or dental department of a medical college located in the state. This bill would revise the board membership to include a total of 8 dentists, 7 of whom are in active practice and one who is a full-time faculty member of a California dental college, and would specify that a minimum of 3 of the dentists would be in the full-time practice of general dentistry, and a maximum of 3 of the dentists may be dentists who practice in a specialty accredited by the American Dental Association.

**Status:** In Senate Com. on B. & P. Hearing canceled at the request of author. (last activity 6/09/04)

AB 1239  
**Cigarette taxation: fees**
Wiggins  
Existing law imposes various fees for the conduct of business in the state and imposes specified taxes on cigarettes and tobacco products. The Cigarette and Tobacco Products Tax Law imposes a tax on every distributor of cigarettes and tobacco products at specified rates, including additional taxes imposed under the Tobacco Tax and Health Protection Act of 1988 (Proposition 99), and the California Families and Children Act of 1998 (Proposition 10). Under existing law, states' attorneys general and various tobacco product manufacturers have entered into a Master Settlement Agreement (MSA), in settlement of various lawsuits, that provides for the allocation of money to the states and certain territories. The state has entered into a memorandum of understanding providing for the allocation of the state's share of moneys to be received under the MSA between the state and counties and certain cities in the state. Existing law requires any tobacco product manufacturer that sells cigarettes to consumers in California and does not participate in the MSA to place specified amounts into a qualified escrow fund by April 15 of each year. This bill would, on and after January 1, 2004, impose a fee, to be determined by the State Department of Health Services as prescribed, on specified tobacco product manufacturers who did not sign the MSA. The bill would create the Nonparticipating Tobacco Manufacturer Mitigation Trust Fund, to receive moneys derived from the imposition of the fee. Upon appropriation by the Legislature, the money in the
fund would be expended to reimburse the board for costs incurred in administering the fee and to fund purposes related to tobacco-related health measures including the creation, expansion, and administration of smoking cessation programs.  

**Status:** Referred to Senate Coms. on Rev. & Tax. and H. & H.S. Hearing canceled at the request of author. (last activity 6/22/04)

**AB 1467**  
**Dentist licensure requirement: Joint Committee on Boards, Commissions, and Consumer Protection**  
1) Existing law provides for the licensing and regulation of dental professionals by the Dental Board of California, in the Department of Consumer Affairs. Under existing law, a person who has been issued a degree of doctor of dental medicine or doctor of dental surgery by a foreign dental school not approved by the board is eligible for the dental licensure examination if he or she has met specified requirements, including completing at least 2 academic years of education at an approved dental school. This bill would instead apply these requirements to graduates whose degree is issued by a foreign dental school that is neither approved by the board nor accredited by a body that has a reciprocal accreditation agreement with a commission or accreditation organization whose findings are accepted by the board. The bill would except from the requirements applicants who have passed Parts I and II of the National Board of Dental Examiners' examination by December 31, 2003, have provided those results to the board within a specified time period, and have passed a restorative technique examination by January 1, 2009. The bill would require applications for the restorative technique examination to be submitted by mail, and would provide that an applicant who fails to pass the restorative techniques examination after 4 attempts is not eligible to retake the restorative technique examination. The bill would require an applicant seeking to take the restorative technique examination again to meet certain requirements and would provide that failure to appear for the examination without good cause constitutes a failure to pass.  
(2) Existing law establishes the Joint Legislative Sunset Review Committee and, until January 1, 2012, requires the committee to hold public hearings and evaluate whether a board or regulatory program has demonstrated a need for its continued existence. This bill would change the name of the committee to the Joint Committee on Boards, Commissions, and Consumer Protection.  

**Status:** CHAPTERED (4/13/04)

**AB 1657**  
**Gelatin-based alcoholic beverages**  
This bill would prohibit the sale, offering for sale, distribution, or import into this state of any prepackaged alcoholic beverage made with a gelatin, or other similar base, intended to solidify the product into a gelatinous, nonliquid state, unless it is sold, offered for sale, or intended to be sold for consumption on the premises in a business establishment that prohibits the presence of persons under 21 years of age on its premises.

**Status:** In Senate Com. on G.O. Failed passage. (last activity 6/22/04)

**AB 1853**  
**Dimenhydrate: dextromethorphan: sale to minors prohibited**  
Existing law regulates the sale of nonprescription drugs, as specified. This bill would, in addition, make it an infraction for any person in an over-the-counter sale to, without a prescription, willfully and knowingly deliver to a person under 18 years of age a nonprescription drug containing dextromethorphan.

**Status:** To inactive file on motion of Assembly Member Simitian. (last activity 5/27/04)

**AB 1899**  
**Ephedrine: transport**  
Existing law provides that it is a crime for any manufacturer, wholesaler, retailer, or other person or entity to fail to properly report, or obtain a business permit for, the sale, transfer, or furnishing of ephedrine or pseudoephedrine. Existing law also generally provides that it is a crime for any retail distributor to sell in a single transaction more than 3 packages of a product that he or she knows to contain ephedrine or pseudoephedrine or to knowingly sell more than 9 grams of ephedrine or pseudoephedrine. This bill would provide, in addition, that it is a felony, punishable as specified, for any person to transport into or within this state an amount in excess of one-half pound or 227 grams of ephedrine or pseudoephedrine. The bill would further provide that is a misdemeanor or felony for any person to transport into this state an amount in excess of 3 packages or 9 grams, but

Source: www.leginfo.ca.gov
less than one-half pound or 227 grams, of ephedrine or pseudoephedrine, unless upon the
prescription of a physician, dentist, podiatrist, or veterinarian licensed to practice in this state.

**Product liability**

Under existing law, everyone is generally responsible, not only for the result of his or her willful acts, but also for an injury occasioned to another by his or her want of ordinary care or skill in the management of his or her property or person, except so far as the latter has, willfully or by want of ordinary care, brought the injury upon himself or herself. Among other things, existing law sets forth certain exemptions with regard to product liability, as specified. This bill would provide that no manufacturer, distributor, or seller of food or nonalcoholic beverages intended for human consumption shall be subject to civil liability for personal injury or wrongful death based on an individual's consumption of that food or nonalcoholic beverages in cases where liability is premised upon the individual's weight gain, obesity, or a health condition related to weight gain or obesity and resulting from his or her long-term consumption, as defined, of food or nonalcoholic beverage that is in compliance with applicable statutory and regulatory requirements, with specified exceptions.

**AB 2030**

*Cogdill*

**Cigarette and Tobacco Products Tax Law: hearings**

Under existing law, the State Board of Equalization is required to conduct an annual hearing before the full board where industry representatives and individual taxpayers are allowed to present proposals for changes to the Cigarette and Tobacco Products Tax Law that may improve voluntary compliance and the relationship between taxpayers and the government. This bill would require the State Board of Equalization to conduct at least 2 such hearings per year that may advance voluntary compliance and improve the relationship between taxpayers and government. This bill would also require the board to post quarterly on its website the cigarette and tobacco products revenues collected and disbursed from the previous quarter to specified funds.

**Status:** CHAPTERED (9/21/04)

**AB 2037**

*La Suer*

**Alcoholic beverages and controlled substances: minors**

Under existing law, the State Department of Health Services licenses and regulates primary care clinics. Existing law provides for the Child Health and Disability Prevention Program, under the supervision of the department of, pursuant to which certain health and disability prevention treatment services are provided to eligible children. Existing law provides for the Medi-Cal program, administered by the department, under which qualified low-income persons are provided with health
care services, including prescription benefits. Existing law creates the Perinatal Services Program, under the Medi-Cal program, to provide assistance to pregnant women and infants up to one year of age in families of qualifying incomes. Existing law requires the delivery of timely and continuing prenatal care during a period of presumptive eligibility pending a determination of eligibility under the application and eligibility determination and redetermination processes in the implementation of the Medi-Cal program. Existing law provides for the delivery of comprehensive clinical family planning services to any person who has a family income at or below 200% of the federal poverty level, and who is eligible to receive these services pursuant to a federal waiver under the Family Planning, Access, Care, and Treatment (Family PACT) Waiver Program as a covered benefit under the Medi-Cal program. This bill would require the department to implement, on or before July 1, 2005, a process that allows an applicant for licensure as a primary care clinic to submit an application for review of the clinic's qualifications for participation in any of the above-described programs simultaneously with any review for enrollment and certification as a provider in the Medi-Cal program, and if approved for participation in a program, to be enrolled or certified, or both, as a provider in the program, subsequent to certification and enrollment as a provider in the Medi-Cal program.

*Status: CHAPTERED (8/25/04)*

Reyes

*Pupil health: self-administration of asthma medication*
Existing law provides that each pupil who is required to take, during the regular school day, medication prescribed for him or her by a physician, may be assisted by the school nurse or other designated school personnel if the school district receives a written statement from the physician detailing the method, amount, and time schedules by which the medication is to be taken and a written statement from the parent or guardian of the pupil indicating the desire that the school district assist the pupil in the matters set forth in the physician's statement. This bill would authorize a pupil to carry and self-administer inhaled asthma medication if the school district receives the statements described above. The bill would require the written statements to be provided to the school district at least annually and more frequently if the medication, dosage, frequency of administration, or reason for administration changes. The bill would subject a pupil to specified disciplinary actions if that pupil uses the inhaled asthma medication in a manner other than as prescribed.

*Status: CHAPTERED (9/28/04)*

AB 2136
Goldberg

*Controlled substances: treatment*
1) Existing law requires the State Department of Alcohol and Drug Programs to adopt any regulations necessary to ensure that every licensed narcotic treatment program is making a sustained effort to end the drug dependency of the patients. This bill would instead require that these regulations ensure that these programs make a sustained effort to end the improper use of legal drugs or the abuse of illicit drugs. (2) Under existing law, the department is responsible for licensing narcotic treatment programs to use replacement narcotic therapy in the treatment of addicted persons whose addiction was acquired or supported by the use of a narcotic drug or drugs, not in compliance with a physician and surgeon's legal prescription. This bill would authorize a patient who is either a defendant or probationer in a court supervised rehabilitation program to be directed by that court to discontinue narcotic replacement therapy only under specified conditions. (3) Existing law authorizes the department to enter into a Medi-Cal Drug Treatment Program contract with each county for the provision of services within the county service area. Existing law requires the department to establish fees for controlled substances dispensed to Medi-Cal beneficiaries under this program based on a per capita uniform statewide monthly reimbursement rate. Existing law requires that reimbursement under the program be limited to the lower of that uniform statewide monthly reimbursement rate or the provider's usual and customary charge to the public for the same or similar services. This bill would provide that if a narcotic treatment program provider establishes a sliding indigency scale for low-income persons who are not eligible to participate in the Medi-Cal Drug Treatment Program in accordance with requirements established by the bill, the provider shall be deemed in compliance with federal and state law for purposes of the application of an exception to reimbursement requirements.

AB 2200  
Hancock

School breakfast program

Existing law requires the State Department of Education to provide information and financial assistance to schools to encourage participation in the federal School Breakfast Program. Existing law requires the department, in making grants, to give preference to school districts and county superintendents of schools that meet specified criteria. This bill would create a state-mandated local program by requiring each school district and county superintendent of schools maintaining kindergarten or any of grades 1 to 12 to make available to an eligible pupil a nutritionally adequate breakfast served through the national school breakfast program, commencing with the 2005-06 school year and each school year thereafter. The bill would require the Superintendent of Public Instruction to notify, in writing, school districts and county superintendents of schools of promising approaches to increasing school breakfast participation by promoting options including, but not limited to, Universal Classroom Breakfast, Second Chance Breakfast, and Grab-and-Go. The bill would authorize priority for existing state grant money to school districts and county superintendents of schools that were not operating a breakfast program prior to the 2005-06 school year.

AB 2296  
Leno

Alcoholic beverages: issuance of liquor licenses: protests

(1) Existing law provides that protests against the issuance of a liquor license may be filed with the Department of Alcoholic Beverage Control. Existing law permits the department to reject protests, except protests made by a public agency, public official, or governing body of a city or county, it determines to be false, vexatious, or without reasonable or probable cause. Existing law also permits a protestant whose protest has been rejected to file an accusation with the department, in which case the department is required to hold a hearing, as specified. This bill would also permit the department to reject protests it determines to be frivolous. (2) Existing law requires, in the case of a protest of the issuance of a liquor license, that a hearing be held not more than 60 days after the receipt of the protest by the State Office of Administrative Hearings. This bill would repeal this hearing.
requirement and instead would establish procedures to be followed in cases in which the department recommends that a license be issued, notwithstanding that one or more protests have been accepted by the department. Under these procedures, the department would be required to notify the applicant and any party whose protest has been accepted in writing of its determination. The bill would provide for a hearing upon the request of any of these protesting parties who have filed a verified protest in a timely fashion pursuant to existing law, authorize the department to accept a late request for a hearing, limit the issues that may be determined at the hearing, provide that the protests of any person who did not request a hearing under these provisions shall be deemed withdrawn, authorize the department to issue the license without any further proceedings if no request for hearing is filed with the department, and provide that the protest is deemed withdrawn if the person requesting the hearing fails to appear at that hearing.

**Status:** CHAPTERED (8/30/04)

**AB 2297**  
**Imported candy: lead contamination**  
Vargas  
Existing law, the Sherman Food, Drug, and Cosmetic Law, requires the State Department of Health Services to regulate manufacture, sale, labeling, and advertising activities related to food, drugs, devices, and cosmetics in conformity with the federal Food, Drug, and Cosmetic Act. Under existing law, the State Department of Health Services is responsible for administering the Childhood Lead Poisoning Prevention Act of 1991. Existing law requires the department to establish a childhood lead poisoning prevention program to identify and conduct medical followup of high-risk children, and to establish procedures for environmental abatement and followup designed to reduce the incidence of excessive childhood lead exposures. Existing law requires the department to assess a fee for these purposes against persons who contributed to sources of lead contamination. This bill would amend the Childhood Lead Poisoning Prevention Act of 1991 to require the department to, as a component of that program, regulate lead in imported candy and use those fees, upon appropriation by the Legislature, to regulate the lead content of imported candy. The bill would require the department to test imported candy to determine the presence of lead, to issue related health advisories, to order removal of, and to embargo, imported candy found to contain lead. The bill would require the department to adopt related regulations and to form an interagency collaborative. The bill would authorize the department to enter into contracts with county health officers and to provide grants to environmental justice organizations.

**Nutrition and physical activity curriculum**  
Chan  
Existing law requires the State Board of Education to adopt instructional materials for use in kindergarten and grades 1 to 8, inclusive, and requires the board to ensure that curriculum frameworks are reviewed and adopted in each subject area consistent with the 6 and 8 year cycles for the submission of instructional materials for purposes of adoption. This bill would require the State Department of Education to incorporate specified nutrition and physical activity education curriculum content into the reading, English language arts, science, and mathematics curriculum framework at its next revision of the curriculum framework.

**Status:** In Asm. Appropriations Com. Held under submission. (last activity 5/19/04)
AB 2342  Drinking water: public health goals
Jackson
Existing law requires the Office of Environmental Health Hazard Assessment to establish and revise recommended public health goals for contaminants in drinking water and to prepare and publish an assessment of public health risks posed by each contaminant for which the State Department of Health Services proposes a primary drinking water standard. Under existing law, the office is periodically required to review these goals and revise them as necessary based upon new scientific data. This bill would authorize the office in conducting the revision of the public health goals to give special consideration to contaminants that cause or contribute to adverse health risks in members of subgroups that constitute a meaningful portion of the population. The bill would require the office, in preparing and publishing the risk assessments, to assess exposure patterns and special susceptibility on infants and children.

Status: CHAPTERED (9/22/04)

AB 2367  Pupil health: asthma
Chan
Existing law requires the governing board of a school district to give diligent care to the health and physical development of pupils. This bill would require a school district that receives an asthma action plan, as defined by the bill, that is submitted by a parent or guardian of a pupil identified as having asthma, to maintain the asthma action plan on file. The bill would require the school district to provide the asthma action plan, along with information on preventing and treating asthma attacks, to each teacher of the pupil for whom the action plan is submitted. This bill would also require a school district to provide annual training to all school staff that provides a basic understanding of asthma.

Status: In Asm. Appropriations Com. Held under submission. (last activity 5/19/04)

AB 2390  Dentistry
Reyes
(1) Existing law, the Dental Practice Act, provides for the licensure and regulation by the Dental Board of California of those engaged in the practice of dentistry. Existing law provides that a person practices dentistry if the person, among other things, manages or conducts as manager, proprietor, conductor, lessor, or otherwise, in any place where dental operations are performed. This bill would exclude from the unlicensed practice of dentistry certain clinics and other entities that own or manage places where dental operations are performed if they comply with various requirements. (2) Existing law authorizes a dentist to operate one mobile dental clinic or unit that is registered and operated in accordance with regulations adopted by the board. Existing law also imposes specified registration requirements on a dentist who maintains additional places of practice. Other provisions of existing law, the Mobile Health Care Services Act, require, subject to specified exemptions, licensure by the State Department of Health Services to operate a mobile service unit. This bill would exempt certain mobile service units from the provisions of the Dental Practice Act that regulate mobile dental clinics or units and additional places of practice. (3) Existing law requires a dentist who desires to have more than one place of practice to pay a fee to, and receive permission in writing, from the board prior to opening an additional place of practice. This requirement does not apply to a dentist who also practices in certain primary and specialty care clinics. This bill would further exempt from this requirement a dentist who also practices in clinics operated by the federal government, a federally recognized Indian tribe, or a community clinic open for limited services no more than 20 hours per week. The bill would make corresponding changes.

Status: CHAPTERED (8/30/04)

AB 2408  Bilingual services
Yee
Under the Dymally-Alatorre Bilingual Services Act, every state agency, except the State Compensation Insurance Fund, directly involved in the furnishing of information or the rendering of services to the public whereby contact is made with a substantial number of non-English-speaking people, as required to employ a sufficient number of qualified bilingual persons in public contact positions to ensure provision of information and services to the public, in the language of the non-English-speaking person. The act provides that an employee of a state or local agency may not be dismissed to carry out the purposes of the act, and that an agency need only implement the act by filling employee public contact positions made vacant by retirement or normal attrition. This bill would also require the filling of newly created positions. The act requires each agency to conduct a

**Adolescent alcohol and substance abuse care**

Existing law, the Adolescent Alcohol and Drug Treatment and Recovery Program Act of 1998, requires the State Department of Alcohol and Drug Programs, in collaboration with counties and providers, to establish community-based recovery programs to intervene and treat the problems of alcohol and drugs among youth. This bill would establish a 3-year pilot program to require the department to provide a one-time grant to prescribed counties to establish a coalition of representatives from all entities that receive public funds for youth services that would, among other things, develop an annual plan for each of the 3 pilot years to ensure an evidence-based methodology to provide services to adolescents with alcohol and other drug-related problems. The bill would require the department to evaluate the program and to report to the Legislature, the Governor, and other interested agencies by June 1, 2007.

**Cigarettes and tobacco products: Cigarette and Tobacco Products Licensing Act**

(1) This bill would exclude cigars, weighing 3 pounds or less per 1,000, from the definition of cigarettes subject to the provision of the act that requires the reporting of ingredients added to cigarettes. This bill would authorize the State Board of Equalization to issue a temporary license to a retailer of tobacco products. This bill would require the State Board of Equalization to post on its Web site the name of any wholesaler or distributor whose cigarette and tobacco products license has been suspended or revoked. This bill would specify that a license issued to a manufacturer or importer is not transferable, and would also require any manufacturer or importer that is issued a license that does not commence business in the manner specified or designated in the license, ceases to do business in the manner specified or designated in the license, or is notified that the license is suspended or revoked, to immediately surrender that license to the board. This bill would also make technical, nonsubstantive changes to specified provisions of the California Cigarette and Tobacco Products Licensing Act of 2003. (2) The Cigarette and Tobacco Products Tax Law requires a tax imposed by that law with respect to distributions of cigarettes to be paid by distributors through the use of stamps or meter register settings, and requires that these stamps or meter register settings be affixed to each package of cigarettes sold. The board is authorized to seize, for forfeiture to the state, cigarettes and tobacco products (a) offered for sale that do not have the proper stamps or meter register settings affixed to the package, (b) for which the taxes have not been paid, or (c) offered for sale in violation of specified provisions of law. The board is required to give notice of seizure and forfeiture by registered mail and, except as prescribed, by publication in a newspaper of general circulation. This bill would, instead, require the board to give notice by certified mail and, except as prescribed, by posting the information on the board's Web site. This bill would make a technical, nonsubstantive amendment to the Cigarette and Tobacco Products Tax Law.

**Alcoholic beverages: licenses**

The Alcoholic Beverage Control Act authorizes the Department of Alcoholic Beverage Control to
impose reasonable conditions on the exercise of retail privileges under the act. The department may impose conditions on certain license transfers at the request of a local governing body in whose jurisdiction a license is located. Existing law requires the local governing body to make the request for imposition of conditions within 40 days after the department mails the notice of the transfer request, if the license to be transferred is located in an area of undue concentration, as defined. Existing law authorizes the department to extend the 40-day period for a period not to exceed an additional 20 days upon the written request of any local law enforcement agency or local government entity with jurisdiction. This bill would also authorize any affected state or federal agency to submit a written request to extend the 40-day period for a period not to exceed an additional 20 days.

*Alcohol and drug abuse professionals*

Existing law provides for the licensure and regulation of various healing arts practitioners, including those who provide counseling-related services, such as psychologists, social workers, and marriage, family, and child counselors. This bill would create the Board of Alcohol and Other Drugs of Abuse Professionals in the Department of Consumer Affairs. The bill would provide for the licensing and certification of alcohol and other drugs of abuse professionals. The bill would prohibit a person from engaging in the professional practice of alcohol and other drugs of abuse counseling outside of a licensed or certified treatment facility unless the person is licensed. The bill would establish criteria and unspecified fees for certification and licensure to provide alcohol and other drugs of abuse counseling and treatment. The provisions of the bill on licensing and certification would become operative on January 1, 2006, subject to certain conditions, and would become inoperative and be repealed on January 1, 2007.

AB 2686 Jackson

*Schools: National School Lunch Program*

Existing law requires each school district and county superintendent of schools maintaining any kindergarten or any of grades 1 to 12, inclusive, to provide for each needy pupil one nutritionally adequate free or reduced-price meal during each school day and defines a nutritionally adequate meal as a breakfast or lunch that qualifies for reimbursement under the federal child nutrition program regulations. Existing law requires the State Department of Education to ensure that the nutrition levels of meals served to school age children pursuant to the National School Lunch Act be of the highest quality and greatest nutritional value possible. This bill would encourage the governing board of a school district participating in the National School Lunch Program to disseminate information regarding the nutritional content of the lunches served as part of the program and to limit the amount of fat and saturated fat in the entrees served as part of that program in compliance with federal recommendations. The bill would require the State Department of Education include on its website information regarding compliance with those provisions.

*(1) School facilities: indoor air quality*

(1) Existing law authorizes the Occupational Safety and Health Standards Board to adopt occupational safety and health standards and orders. Other existing law, the Leroy F. Greene School Facilities Act of 1998 (Greene Act), requires the State Allocation Board to allocate to applicant school districts funding for construction of school facilities, including funding for new construction and modernization. This bill would require a school district applying for funds pursuant to the Greene Act to include in its plans and specifications for the new construction or modernization of a school building an indoor air quality construction management plan. The bill would also require a school district to submit a plan to implement the Tools for Schools Program of the United States Environmental Protection Agency or an equivalent program equal in style and effectiveness to the State Allocation Board within one year of completion of the new construction or modernization. (2) Existing law requires a school district receiving funds pursuant to the Greene Act to establish a restricted account within the school district's general fund for the exclusive purpose of providing moneys for ongoing and major maintenance of school facilities, as provided. Other existing law authorizes the governing board of each school district to establish a restricted fund to be known as

Source: www.leginfo.ca.gov
the district deferred maintenance fund for the purpose of major repair or other maintenance, as specified. Existing law requires the State Allocation Board to apportion from the State School Deferred Maintenance Fund, to school districts, an amount equal to $1 for each $1 of local funds deposited in the district's deferred maintenance fund. This bill would authorize funds in a school district's restricted account and funds allocated from the State School Deferred Maintenance Fund to be used for repairs or renovations to prevent indoor air quality problems in school facilities and to implement the Tools for Schools Program of the United States Environmental Protection Agency, or an equivalent program equal in style and effectiveness. (3) Existing law requires a school district that desires an apportionment from the State School Deferred Maintenance Fund to file a 5-year deferred maintenance plan with the State Allocation Board. This bill would require a school district to include procedures for preventing indoor air quality problems in that plan commencing January 1, 2005, and to include completed checklists for ventilation and moisture intrusion commencing January 1, 2006.

Taxpayer contributions: D.A.R.E. Fund

Provisions relating to the administration of personal income taxes allow individual taxpayers to contribute amounts in excess of their tax liability for the support of specified funds. This bill would allow taxpayers to designate on their tax returns that a specified amount in excess of their tax liability be transferred to the Drug Abuse Resistance Education (D.A.R.E.) Fund, which would be created by this bill. However, the bill would provide that a voluntary contribution designation for this fund may not be added on the tax return until another voluntary contribution designation is removed from that return. This bill would require that all moneys contributed to the fund pursuant to these provisions, upon appropriation by the Legislature, be allocated to the Franchise Tax Board, the Controller, and to the California Highway Patrol, as provided. This bill would provide that these voluntary contribution provisions are repealed on January 1 of the 5th taxable year following the taxable year the fund first appears on the tax return. The bill would further provide that these provisions are repealed for taxable years beginning on or after January 1 of the calendar year in which the Franchise Tax Board estimates by September 1 that the contributions made on returns filed in that calendar year will be less than $250,000, or an adjusted amount for subsequent taxable years.

Dentistry licensure

(1) Existing law, the Dental Practice Act, provides for the licensure and regulation by the Dental Board of California of those engaged in the practice of dentistry. Existing law provides that a person practices dentistry if the person, among other things, manages or conducts as manager, proprietor, conductor, lessor, or otherwise, in any place where dental operations are performed. This bill would exclude from the unlicensed practice of dentistry certain nonprofit entities that own or manage places where dental operations are performed if they comply with various requirements. (2) Existing law requires a dentist who desires to have more than one place of practice to pay a fee to, and receive permission in writing from, the board prior to opening an additional place of practice. This requirement does not apply to a dentist who also practices in certain primary and specialty care clinics. This bill would further exempt from this requirement a dentist who also practices in clinics operated by the federal government, a federally recognized Indian tribe, or a community clinic open for limited services no more than 20 hours per week. The bill would make corresponding changes. (Includes additional licensing provisions.)

Status: CHAPTERED (9/10/04)

SB 1168  
Ortiz  
Healthy Californians Biomonitoring Program

Existing law establishes various programs for the protection of the public from exposure to toxins, including, but not limited to, the Childhood Lead Poisoning Prevention Act, administered by the State Department of Health Services, which imposes a fee upon manufacturers or persons who are responsible for lead contamination and applies the proceeds of the fee to reduction or elimination of the harm caused by the lead contamination. This bill would, commencing January 1, 2006, similarly require the Division of Environmental and Occupational Disease Control within the department to establish the Healthy Californians Biomonitoring Program utilize biospecimens to identify toxic chemicals that are present in the bodies of Californians and would require the division to initiate plans to minimize exposure to those contaminants. This bill would require the director and the secretary to identify and list toxic chemicals that are subject to the bill, would require a phased implementation of the listed chemicals, and would authorize the Office of Environmental Health Hazard Assessment within the California Environmental Protection Agency to adopt regulations. This bill would require the department and the agency to establish an advisory panel to assist the department and the agency, and would provide for a phased implementation of the biomonitoring program with full implementation commencing after completion of initial pilot programs which would be required to be completed by January 1, 2009.

SB 1171  Ortiz  
*Food establishments: nutritional information*
California Uniform Retail Food Facilities Law (CURFFL) provides for the regulation of health and sanitation standards for retail food facilities by the State Department of Health Services. Under existing law local health agencies are primarily responsible for enforcing CURFFL. A violation of any of these provisions is punishable as a misdemeanor. This bill would require each food establishment, as defined, in the state that is part of a large chain, as defined, to include calorie information on menu boards and to include in printed menus the total number of calories, grams of saturated plus transfat, and milligrams of sodium per serving. The bill would provide that a food establishment would be in violation of the act and guilty of an infraction only if it knowingly or negligently fails to comply with these requirements. The bill would provide for commencement of enforcement of its provisions beginning on January 1, 2006.
*Status:* In Senate Com. on H. & H.S. Hearing postponed by committee (last activity 3/4/04)

SB 1173  Ortiz  
*Tobacco products: self-service display*
The existing Stop Tobacco Access to Kids Enforcement (STAKE) Act is designed to reduce the availability of tobacco products to minors through sales restrictions and enforcement activities. The act prohibits the furnishing of tobacco products to, and the purchase of tobacco products by, any person under the age of 18 years and authorizes the assessment of civil penalties for a violation of the act. Specifically, the STAKE Act prohibits a person engaged in the retail sale of tobacco products to sell, offer for sale, or display for sale, cigarettes by self-service display, as defined. This bill would broaden that prohibition by prohibiting a person engaged in the retail sale of tobacco products from selling, offering for sale, or displaying for sale, any tobacco product or tobacco paraphernalia by self-service display. However, the bill would provide an exemption to that prohibition for the display in a tobacco store of cigars, pipe tobacco, snuff, chewing tobacco, or dipping tobacco, provided that, in the case of the cigars, they are generally not sold or offered for sale in a sealed package of the manufacturer or importer containing less than 6 cigars. In the event of an enforcement action brought under the act, the bill would require the retail business that displays any of those items in a self-service display to have the burden of proving that it qualified for the exemption.
*Status:* CHAPTERED (9/27/04)

SB 1386  Vasconcellos  
Pupils: drug and alcohol testing
Existing law authorizes a superintendent or principal of a school to suspend or expel a pupil who commits one or more of enumerated acts including, among others, certain specified acts regarding the use, possession, or offering of intoxicants. This bill would provide for the drug or alcohol testing of a pupil only upon a reasonable suspicion, as defined, that the pupil is unlawfully using or has unlawfully used a controlled substance, as specified, or alcohol. The bill would require a school district, if it adopts a drug and alcohol testing policy, to provide adequate notice of the policy to the parent or guardian. The bill would also restrict access to test results to specified individuals. The bill would provide that a school district should seek to ensure that a pupil who tests positive for the unlawful use of drugs or alcohol is referred to a school counselor, a substance abuse professional, or other appropriate school staff, to develop a course of treatment to address the unlawful use of drugs or alcohol. The bill would also authorize a school district to conduct a random testing program if specified conditions are met, and would require a school within a district that conducts that testing program to conduct certain surveys and to report to the governing board of the school district.
*Status:* VETOED (9/18/04)

SB 1446  Escutia  
*Environmental health data tracking*
Existing law establishes the Environmental Health Surveillance System through an interagency agreement between the State Department of Health Services, the California Environmental Protection Agency, and the University of California if authorized by the regents, for the purpose of, among other things, tracking and evaluating a variety of chronic diseases in relation to environmental exposures. This bill would require, pursuant to that interagency agreement, the establishment of the Interagency Office of Environmental Health Tracking within the department's Division of Environmental and Occupational Disease Control for the purpose of implementing the California Health Tracking Program. The bill would require the department and the Cal/EPA to each provide one 50% time research scientist as staff for the new office. The bill would prescribe the office's
objectives over a 3-year period and would require the office to complete certain duties for the 2004-05 fiscal year.

**Status:** In Asm. Appropriations Com. Held in committee and under submission. (last activity 8/12/04)

**SB 1494** Medical Marijuana

The Compassionate Use Act of 1996 provides that a patient or a patient's primary caregiver who possesses or cultivates marijuana for personal medical purposes of the patient upon the written or oral recommendation or approval of a physician is not subject to conviction for offenses relating to possession and cultivation of marijuana. Existing law requires the State Department of Health Services to establish and maintain a voluntary program for the issuance of identification cards to patients qualified to use marijuana for their personal medical purposes, and to their primary caregivers, if any. Existing law establishes limits on the amount of marijuana that a qualified patient or primary caregiver may possess, unless a doctor recommends that those amounts do not meet the patient's needs. Existing law provides that counties and cities may retain or enact medical marijuana guidelines allowing persons with an identification card to exceed these limits. This bill would recast these provisions relating to the amount of marijuana that may be possessed for personal medical purposes. The bill, instead, would provide that a qualified patient, person with an identification card, or any designated primary caregiver may possess any amount of marijuana consistent with the medical needs of that qualified patient or person with an identification card. The bill would provide that a person with an identification card or a designated primary caregiver with an identification card is not subject to arrest for possessing or maintaining certain amounts of marijuana. The bill would provide that this provision is not intended to affect any city or county guidelines to the extent that the amounts contained in those guidelines exceed the quantities set forth in the bill.

**Status:** VETOED (7/20/04)

**SB 1546** Dentistry

Existing law requires the board to license persons meeting specified requirements as various types of dental auxiliaries, and requires the board to enact certain regulations with respect to those licensees. Existing law also describes the functions that those licensees are permitted to perform and imposes specified requirements on them. Existing law prohibits a dentist from utilizing more than 2 dental auxiliaries in extended functions. Under existing law, fees collected in connection with the practice of a dental auxiliary are deposited into the State Dental Auxiliary Fund, which is continuously appropriated. This bill would, on January 1, 2007, revise the requirements imposed on, and the functions that may be performed by, a dental assistant or a dental assistant in extended functions. The bill would also, on and after January 1, 2007, require the board to license a person who meets specified requirements as a registered dental assistant, registered orthodontic assistant, registered surgery assistant, registered restorative assistant, registered dental assistant in extended functions, or registered restorative assistant in extended functions. This bill would require the board, upon recommendation of the committee, to adopt implementing regulations regarding education and training requirements that those licensees and registered dental hygienists are required to meet and procedures they may perform. The bill would also require the board to report periodically to the Joint Committee on Boards, Commissions, and Consumer Protection regarding the regulations imposed on licensees. The bill, on and after January 1, 2007, would authorize a dentist to utilize up to 3 dental auxiliaries in extended functions. The bill would also make other related changes.

Perata  
*Alcoholic beverages*  
(1) Existing law generally prohibits a manufacturer of alcoholic beverages and a winegrower from paying, crediting, or compensating a retailer for advertising or paying or giving anything of value for the privilege of placing a sign or advertisement with a retail licensee. It authorizes, as an exception, the holder of a beer manufacturer's or winegrower's license, or a distilled spirits manufacturer or a distilled spirits manufacturer's agent, to purchase advertising space and time from, or on behalf of, an on-sale retail licensee, under certain conditions, if the on-sale retail licensee is the owner, manager, agent, assignee, or major tenant of a specified facility. This bill would extend that exception to an on-sale licensee who is a distilled spirit rectifier, as provided, or the owner, manager, agent of the owner, assignee of the owner's advertising rights, or the major tenant of the owner of an outdoor stadium or a fully enclosed arena with a fixed seating capacity in excess of 10,000 seats located in Alameda County. This bill would make findings regarding the need for special legislation. (2) Existing law makes it a misdemeanor for licensees and other persons to violate existing provisions relating to the purchase of that advertising space or time. This bill would impose a state-mandated local program by expanding the licensees subject to these criminal provisions.  
*Status:* CHAPTERED (8/23/04)

SB 1681  
McPherson  
*Alcohol and drug programs*  
Existing law provides that the State Department of Alcohol and Drug Programs is the single agency authorized to receive any federal funds payable directly to the state by the federal Substance Abuse and Mental Health Services Administration to implement programs that provide services to alleviate the problems related to the inappropriate use of alcoholic beverages and other drugs. Existing law requires that whenever the Substance Abuse and Mental Health Services Administration conditions its allocation of funds to the department in a manner that would conflict with any provisions of law relating to the relationship of the department to other governmental agencies and the private sector, the department shall specifically describe the conflict in its application for federal funds. This bill would repeal that requirement. Existing law requires the department, among other duties, to review and approve or disapprove county alcohol program plans and county drug program plans submitted for state and federal funds allocated by the department and provide funds to counties for the planning and implementation of local programs to alleviate problems related to inappropriate alcohol and drug use. Existing law requires the department to estimate an allocation of state and federal funds available for each county to implement the approved program plans. This bill, instead, would require the department to estimate an allocation of state and federal funds available to execute negotiated net amount contracts, Drug Medi-Cal contracts, or county plans. Existing law requires the department, in making allocations, to base its allocations on the population of each county. This bill would require the department to base its allocations on either the population of each county or those factors necessary to comply with federal performance requirements. Existing law also requires that the 1984-85 fiscal year establish the base funding for the county alcohol and drug allocation for local programs and authorizes a county with a population of 200,000 or less to shift funds between alcohol and drug programs at its discretion. This bill would delete those provisions.  
*Status:* In Asm. Appropriations. Held in committee and under submission. (last activity 8/12/04)
SB 1798
Torlakson

Physical education

(1) This bill would require the holder of a single subject teaching credential that authorizes the holder to teach physical education to complete at least 50% of those hours in activities related to physical education curriculum development, instruction, and pupil assessment or to complete at least 25% of those hours in these activities if the holder also teaches one or more other subjects. By requiring school districts to verify compliance with this new requirement, the bill would impose a state-mandated local program. The bill would state the intent of the Legislature that all classroom teachers become familiar with the epidemics of obesity, diabetes, and related health consequences and that they utilize continuing education, professional training, and federal, state, and local resources to learn the benefits of physical education. (2) Existing law requires a pupil in grades 7 to 12, inclusive, to attend physical education courses for no less than 400 minutes each 10 schooldays, but permits a pupil in grade 10, 11, or 12 to be excused from a portion of that requirement in order to participate in automobile driver training. This bill would delete the provision that permits a pupil to be excused from physical education courses in order to participate in automobile driver training. (3) Existing law authorizes supplemental grant funds to be allocated to school districts that receive less than average funding from existing state programs. Existing law requires these grant funds to be expended only for the purpose of funding certain specified programs. This bill would authorize a school district to use supplemental grant funds to purchase equipment and materials necessary to implement quality physical education and physical fitness programs that are part of the course of study during the regular schoolday.

SB 1821
Dunn

Tobacco products: minimum legal age: advertising, display, and distribution limitations

(1) Existing law prohibits a person from making various promotional or advertising offers of smokeless tobacco products without taking actions to ensure that the product is not available to persons under 18 years of age. This bill would extend the applicability of those provisions to persons under 21 years of age, except those born before January 1, 1987. (2) The Stop Tobacco Access to Kids Enforcement (STAKE) Act is designed to reduce the availability of tobacco products to minors through sales restrictions and enforcement activities. The act, among other things, prohibits the furnishing of tobacco products to, and the purchase of tobacco products by, a person under the age of 18 years, authorizes the assessment of civil penalties of a violation of the act, and makes the violation of certain provisions of the act a criminal offense. Existing law also makes it a crime to engage in activities for which civil penalties may be imposed under the act. This bill would extend the applicability of the act and the criminal law described above to persons under the age of 21 years, except for those who were born before January 1, 1987. (3) The act requires the State Department of Health Services to conduct random, onsite sting inspections at retail sites, and requires the department to enlist the assistance of persons who are 15 and 16 years of age for this purpose. This bill would, instead, authorize the department, until January 1, 2007, to enlist the assistance of persons who are 15 and 16 years of age, and, on and after January 1, 2007, to enlist the assistance of persons under 21 years of age, for these inspections.

SB 1838
Chesbro

Alcohol and drug prevention and treatment programs

(1) Existing law provides for drug and alcohol prevention and treatment programs, administered by the State Department of Alcohol and Drug Programs. These provisions are organized into separate categories for programs related to the inappropriate use of alcoholic beverages and those related to the use and abuse of drugs. These provisions authorize the department to provide funds, to counties that elect to participate, for the planning and implementation of local programs to alleviate problems related to inappropriate alcohol and drug use, and require the department to review and approve or disapprove county alcohol program plans and county drug program plans submitted for state and federal funds allocated by the department. This bill would reorganize and recast these provisions to combine the 2 program categories related to alcoholic beverages and drugs. The bill would revise definitions and terminology applicable to these provisions to reflect this change. The bill would make conforming changes to resolve conflicting provisions among the program categories combined under the bill related to, among things, departmental audits of expenditures of funds allocated to

Source: www.leginfo.ca.gov
counties. (2) Existing law requires the department to develop and administer waiver application criteria for capital construction of alcohol recovery facilities and drug treatment facilities. This bill would eliminate this requirement. (3) Existing law requires the California Health and Human Services Agency to create an interagency task force to develop a coordinated state strategy for addressing the treatment needs of pregnant women, postpartum women, and their children for alcohol or drug abuse. This bill would repeal this provision. (4) Under existing law, any board of supervisors that elects to apply for funding under these provisions is required to submit to the department an annual county alcohol program plan, county drug program plan, or both, for the current state fiscal year, within 90 days after notification of the final allocation of each year. This bill would require a county that elects to participate to submit the plans within 60 days after the notification. (5) Existing law requires a county that elects to apply for funds under these provisions to establish a perinatal coordinating council. This bill, instead, would authorize the county to establish a perinatal coordinating council. (6) Existing law requires the department to negotiate net amount contracts with each county that requests to participate, in lieu of county plans, budgets, and reports, required for funding under these provisions. This bill would revise the procedures applicable to a negotiated net amount contract. (7) Existing law requires the department to implement a program certification procedure for direct services funded under these provisions as they relate to alcohol use. This bill would, instead, require the department to implement a program certification procedure for alcohol and other drug treatment and recovery services funded under these provisions. (8) Existing law requires all drug abuse programs, including narcotic treatment programs, within a county to register with the county. This bill would require all narcotic and drug abuse programs within a county to register with the county.

**SB 1865  Aanestad**

**Dentists: licensing examinations**

The Dental Practice Act provides for the licensing and regulation of dentists and associated professions by the Dental Board of California. Existing law requires an applicant for a license to practice dentistry to pass a written examination on subjects prescribed by the board, and to also pass a clinical examination. This bill would require an applicant for a license to practice dentistry to complete various examinations, including the National Board Dental Examination, an examination in California law and ethics developed by the board, and a clinical and written examination administered either by the board or the Western Regional Examining Board. The bill would require the Department of Consumer Affairs to review the examination offered by the Western Regional Examining Board, and would appropriate $150,000 from the State Dentistry Fund to the department for this purpose pursuant to a specified schedule. The bill would require a report by the Dental Board of California on examination passage rates. Existing law requires an applicant for an examination to furnish documentary evidence to the board that he or she has graduated from a reputable dental college. This bill would authorize the board to approve an application for examination or accept the results of an examination from an applicant who has not yet graduated from a reputable dental college, if certain conditions are met.

AB 691  
Nursing facilities: vaccines

Daucher

This bill would require a skilled nursing facility, an intermediate care facility, or a nursing facility, as defined, to offer immunizations for influenza and pneumococcal disease to its residents, aged 65 years or older, between October 1 and April 1 of each year, and to offer pneumococcal vaccine to all new admits. The bill would require that the facility be reimbursed the standard Medi-Cal rate for vaccines provided to Medi-Cal recipients, except under specified circumstances. The bill would require the facility to obtain informed consent for the immunization services from the resident or, if the person lacks the capacity to make medical decisions, for the person legally authorized to make medical decisions on the resident's behalf. This bill would specify circumstances under which the immunizations may not be administered to a resident, and circumstances under which the facility shall not be required to provide the immunization services required by the bill. The bill would provide that if a health care facility fails to offer an immunization pursuant to the bill due to lack of availability of vaccine, or due to the physician's or resident's refusal or lack of cooperation, the failure shall not be the basis for issuing a deficiency or citation against the facility's license. The bill would authorize the department to issue a deficiency or citation for failure to comply with provisions of the bill relation to resident evaluation and consent procedures.

AB 1091  
Reportable diseases

Negrete

Existing law requires the State Department of Health Services to establish a list of reportable diseases, which may include both communicable and noncommunicable diseases. Existing law authorizes the department to change the list at any time. This bill would require the list to include reportable conditions and the urgency of reporting each disease and condition. The bill would require the department to consult with the California Conference of Local Health Officers before making a change to the list. The bill would exempt modifications to the list from certain existing law provisions relating to the adoption of administrative rules and regulations.

Status: CHAPTERED (8/23/04)

AB 1822  
Schools: pupil immunizations

Chan

Existing law prohibits governing boards of public and private schools and child care facilities, including, but not limited to, elementary and secondary schools, from unconditionally admitting pupils who have not been fully immunized against listed diseases. For mumps, the prohibition applies only to pupils who have not reached the age of 7 years. For hepatitis B, existing law applies for all children entering the institution at the kindergarten level or below on or after August 1, 1997, and prohibits the governing authority from unconditionally admitting or advancing any pupil to the 7th grade level unless the pupil has been fully immunized. This bill would, for mumps, apply the prohibition against unconditional admission of pupils who have reached the age of 7 years. This bill would, for hepatitis B, prohibit the governing authority from unconditionally admitting a pupil at any grade level, unless the pupil has been fully immunized.

Comprehensive sexual health and HIV/AIDS prevention instruction

Haynes

The existing California Comprehensive Sexual Health and HIV/AIDS Prevention Education Act, authorizes school districts to provide comprehensive sexual health education, as defined, in any kindergarten to grade 12, inclusive, and ensures that all pupils in grades 7 to 12, inclusive, receive HIV/AIDS prevention education, as defined. Existing law requires a school district to notify the parent or guardian of a pupil about instruction in comprehensive sexual health education and HIV/AIDS prevention and empowers a parent or guardian to excuse his or her pupil from all or part of that instruction. This bill would require, if the instruction in comprehensive sexual health education and HIV/AIDS prevention will be taught by outside consultants, or if that instruction is to be given in an assembly, a school district to notify the parent or guardian of a pupil about that instruction, as specified, no fewer than 10, and no more than 15 days in advance of the instruction.

AB 2180  
Dutton

**Comprehensive sexual health education**

(1) Existing law encourages a schoolsite council to consider including certain components in its school safety plan when it next reviews and updates its school safety plan. One of these components is the inclusion of a policy ensuring that all staff and pupils know how to report incidents of violence, discrimination, harassment, and abuse. Existing law encourages a schoolsite council to consider incorporating strategies to achieve certain specified goals, including the provision of professional education staff who are sensitive to the needs of pupils of all races, genders, sexual orientations, ethnic and cultural backgrounds, and pupils with disabilities. This bill would, in addition, encourage a schoolsite council to consider incorporating strategies to achieve the provision of professional education staff who are sensitive to the needs of pupils of all religions. (2) Existing law declares that no provision of the Education Code may be construed to prevent or exclude from the public schools references to, or the use of, things having a religious significance if those references or uses do not constitute instruction in religious principles, and if those references or uses are incidental to or illustrative of matters properly included in the course of study. This bill would, in addition, prohibit those references or uses from denigrating any religious doctrine. (3) The California Comprehensive Sexual Health and HIV/AIDS Prevention Education Act, among other things, authorizes school districts to provide comprehensive sexual health education, as defined, in any kindergarten to grade 12, inclusive. The existing act requires that instruction and materials not teach or promote religious doctrine. This bill would, in addition, prohibit that instruction and materials from denigrating religious doctrine.

**Prisoners: medical testing**

Existing law makes legislative findings and declarations concerning the spread of the human immunodeficiency virus (HIV) and acquired immune deficiency syndrome (AIDS) within state and local correctional institutions. Existing law provides that a law enforcement employee who believes that he or she came into contact with bodily fluids of either an inmate of a correctional institution, a person who has been arrested or taken into custody, or a person on probation or parole, or an inmate of a correctional institution who believes that he or she has come into contact with the bodily fluids of another inmate may request an HIV test of that person. Existing law requires that the chief medical officer of a correctional facility decide whether to order a test of an inmate who is the subject of a report by a law enforcement officer within 5 days. Existing law provides that these provisions shall be repealed January 1, 2005, as specified. This bill would delete the repeal of these provisions. This bill would amend legislative findings and declarations with respect to the exposure of law enforcement personnel to HIV. This bill would provide that an incident report filed by a law enforcement employee containing a request for HIV testing of an inmate shall not be delayed, as specified. This bill would require that the chief medical officer decide whether to order a test of an inmate who is the subject of a report within 24 hours of receiving the report. This bill would provide that a test shall be ordered if the chief medical officer finds that there is a significant risk that HIV was transmitted and shall consider any adverse health effect on institution staff or inmates required to undergo prophylactic treatment for HIV. This bill would provide that an appeal of the decision of a chief medical officer whether to order the subject of a report to undergo HIV testing shall be heard within 7 calendar days. This bill would also provide that when an appeal is filed by a law enforcement employee containing a request for HIV testing of an inmate shall not be delayed, as specified. This bill would require that the chief medical officer decide whether to order a test of an inmate who is the subject of a report within 24 hours of receiving the report. This bill would provide that a test shall be ordered if the chief medical officer finds that there is a significant risk that HIV was transmitted and shall consider any adverse health effect on institution staff or inmates required to undergo prophylactic treatment for HIV. This bill would provide that an appeal of the decision of a chief medical officer whether to order the subject of a report to undergo HIV testing shall be heard within 7 calendar days. *Hypodermic needles and syringes*

Vasconcellos

(1) Existing law regulates the sale, possession, and disposal of hypodermic needles and syringes. Under existing law, a prescription is required to purchase a hypodermic needle or syringe for human use, except to administer adrenaline or insulin. This bill, subject to authorization by a county or city, would authorize a licensed pharmacist, until December 31, 2010, to sell or furnish 10 or fewer hypodermic needles or syringes to a person for human use without a prescription if the pharmacy is registered with a local health department in the Disease Prevention Demonstration Project, which would be created by the bill to evaluate the long-term desirability of allowing licensed pharmacies to sell or furnish nonprescription hypodermic needles or syringes to prevent the spread of blood-borne pathogens, including HIV and hepatitis C. The bill would require a pharmacy that participates in the Disease and Demonstration Project pursuant to county or city authorization to comply with specified requirements, including registering with the local health department. The bill would require the State Department of Health Services, in conjunction with an advisory panel, to evaluate the effects of allowing the sale of hypodermic needles or syringes without prescription, and would require a report to be submitted to the Governor and the Legislature by January 15, 2010. The bill would encourage the State Department of Health Services to seek funding from private and federal sources to pay for the evaluation. The bill would impose various other duties on local health departments, thereby imposing a state-mandated local program. The demonstration program would terminate on December 31, 2010. Alternatively, the bill would also authorize the sale or furnishing of hypodermic needles or syringes to a person for human use without a prescription if the person is known to the furnisher and has previously provided the furnisher with a prescription or other proof of a legitimate medical need. The bill would make it unlawful to discard or dispose of a hypodermic needle or syringe upon the grounds of a playground, beach, park, or any public or private elementary, vocational, junior high, or high school. The bill would make a knowing violation of this prohibition a crime, thereby imposing a state-mandated local program. (2) Existing law requires a pharmacist to keep detailed records of nonprescription sales of hypodermic needles and syringes. This bill would delete that requirement. (3) Existing law prohibits the possession and sale of drug paraphernalia. This bill, until December 31, 2010, subject to authorization by a county or city, would allow a person to possess 10 or fewer hypodermic needles or syringes if acquired through an authorized source.

AB 2406  Bermudez  Fire safety
1) Existing law requires chief fire officials, as specified, to furnish information and data to the State Fire Marshal relating to each fire that occurs within his or her area of jurisdiction. The State Fire Marshal is required to adopt regulations prescribing the scope of the information to be reported, the manner of reporting the information, and other requirements and regulations as the State Fire Marshal determines necessary. This bill would require the State Fire Marshal, in consultation with the State Board of Fire Services and specified experts, to adopt revised regulations to require the statistical information furnished on and after July 1, 2006, to include response time and staffing level information that is compatible with the National Fire Incident Reporting System established by the Federal Emergency Management Agency and to include other specified information. By increasing the duties of local officials, this bill would impose a state-mandated local program. (2) Existing law requires the State Fire Marshal to annually analyze the information and data reported, and compile and report and disseminate a copy of the report to each chief fire official in the state. This bill would, on and after July 1, 2006, authorize the State Fire Marshal to instead make the report available on the State Fire Marshal Web site and would prescribe information to be included in the report.

Status: VETOED (9/23/04)

AB 2670  Benoit  Automatic external defibrillator requirements: public safety personnel
Existing law, the Emergency Medical Services System and the Prehospital Emergency Medical Care Personnel Act, permits each county to establish an emergency medical services program under which the county is required to designate a local emergency medical services agency (EMS agency). The act authorizes the local EMS agency to implement a trauma care system if the system meets the minimum standards set forth in the regulations for implementation established by the Emergency Medical Services Authority and the authority has approved a plan. Existing law requires the maintenance, testing, readiness, and use of automatic external defibrillators, and related personnel training requirements. This bill would exempt public safety personnel from certain of these requirements, and would provide that public safety personnel test, maintain, and check the defibrillators for readiness pursuant to the manufacturer's recommendations.

**Emergency medical services**  
Dunn  
Existing law authorizes each county to establish an emergency medical services fund, and makes money in the fund available for the reimbursement of physicians and surgeons and hospitals for losses incurred in the provision of emergency medical services when payment is not otherwise made for those services. Existing law provides that payments for emergency medical services from the county emergency medical services fund shall be made only for emergency medical services provided on the calendar day on which emergency medical services are first provided and on the immediately following 2 calendar days and specifies that payments may not be made for services provided beyond a 48-hour period of continuous service to the patient. Existing law also provides that if it is necessary to transfer the patient to a 2nd facility providing a higher level of care for the treatment of the emergency condition, reimbursement shall be available for services provided at the facility to which the patient was transferred on the calendar day of transfer and on the immediately following 2 calendar days, and specifies that payments may not be made for services provided beyond a 48-hour period of continuous service to the patient. This bill would, until January 1, 2007, eliminate the limitation against making those payments for services provided beyond a 48-hour period of continuous services to the patient.  
**Status:** CHAPTERED (9/15/04)

SB 678  
**Bioterrorism preparedness: federal funding**  
Ortiz  
This bill would revise the provisions relating to the allocation and expenditure of federal bioterrorism preparedness funds, and would delete the similar provisions of existing law. The bill would appropriate $18,145,889 from the Federal Trust Fund to the department, $6,462,287 of which would be used for hospital bioterrorism preparedness in accordance with federal guidelines, and $11,683,602 of which would be used for implementing the above provisions of existing law, including making appropriated funds available for smallpox preparedness costs, in accordance with the federally approved state-local plan for allocation and expenditure of these funds. The bill would deem moneys made available in the 2003-04 Budget Act for bioterrorism preparedness available for expenditure and encumbrance until August 30, 2005. This bill would authorize the department to use federal funds received from the Centers for Disease Control and Prevention and appropriated to the department to enter into contracts for the purpose of meeting the federally approved bioterrorism plan. The bill would exempt these contracts, as well as agreements for purposes of hospital bioterrorism preparedness, from provisions of existing law relating to contracting by state agencies.

SB 828  
**Health facilities: boutique hospitals**  
Figueroa  
Existing law requires any health facility that maintains and operates an emergency department to provide emergency services to the public, to provide emergency services and care to any person requesting the services, and to any person for whom services and care is requested. This bill would prohibit the State Department of Health Services from issuing a license to operate a "boutique hospital," as defined, unless that boutique hospital agrees to continuously maintain and operate an emergency department, that provides either basic or comprehensive services.  
**Status:** In Assembly Com. on Health. Hearing cancelled at the request of author. (last activity 6/22/04)

SB1433  
**Trauma care funding**  
Romero  
Existing law, the Emergency Medical Services System and the Prehospital Emergency Medical Care Personnel Act, permits each county to establish an emergency medical services program under which the county is required to designate a local emergency medical services agency (EMS agency). The act authorizes the local EMS agency to implement a trauma care system if the system meets the minimum standards set forth in the regulations for implementation established by the Emergency Medical Services Authority and the authority has approved a plan. Existing law establishes the Trauma Care Fund and continuously appropriates money in the fund for the purpose of funding trauma care. This bill would establish the Trauma Care Fund Advisory Board, and would set forth its membership and duties, including, but not limited to, review of allocations and expenditures from the fund, and making recommendations regarding trauma center funding to the authority, the Governor, and the Legislature. This bill would permit the board to solicit private donations, which would be
required to be deposited in the continuously appropriated fund, thereby making an appropriation.

**Status:** In Sen. Insurance Com. Hearing postponed by committee. (last activity 4/26/04)

**SB 1679**  
**Perata**  
*Health care service plans*

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health Care. Existing law requires the department to adopt regulations on an emergency basis when an enrollee requires medical care and when an enrollee in the opinion of the treating provider requires necessary medical care, following stabilization of an emergency medical condition, including appropriate timeframes for a health care service plan to respond to requests for treatment authorization. This bill would delete the emergency basis provision for adopting regulations. The bill would specify that the appropriate time frames for a health care service plan to respond to requests for treatment authorization not exceed 30 minutes.

**Status:** From printer. May be acted upon on or after 3/22. (last activity 2/21/04)

Child abuse: mental suffering
This bill would provide that willfully causing or permitting a child to suffer, or inflicting upon a child, unjustifiable mental suffering, constitutes a violation of the Penal Code section prohibiting such acts regardless of whether the act or acts causing the mental suffering also result in physical injury or harm to the child. The bill would also provide that evidence that a person has willfully caused, permitted, or inflicted mental suffering may include evidence of an injury to the intellectual or psychological capacity or the emotional condition of a child, as specified. The bill would also revise the definition of "abuse against a child" in making a determination of the best interest of the child, for purposes of determining child custody, to include willfully causing, permitting, or inflicting unjustifiable mental suffering upon a child. This bill would encourage local law enforcement agencies to develop projects of collaboration between law enforcement officers and mental health professionals in order to address the needs of children and families exposed to violence, as specified, to be funded using grant funding, as available, or available resources within the existing budget of the law enforcement agency.

**Nursing Workforce Education Investment Act**

This bill would establish the Nursing Workforce Education Investment Act. The act would establish in OSHPD a state nursing contract program with accredited schools and programs that educate and train licensed vocational nurses and registered nurses to increase the supply of nurses in California. The act would require the Director of OSHPD, commencing July 1, 2006, to select and contract on behalf of the state with accredited nursing schools, programs that train nurses, hospitals, and other health care delivery systems for the purpose of educating nursing students. When determining which nursing programs to fund, the act would require OSHPD to give priority to programs that include training specifically designed for medically underserved multicultural communities, lower socioeconomic neighborhoods, or rural communities, and prepare program graduates for service in those neighborhoods and communities. The act would require the state nursing contract program to be funded under the federal Workforce Investment Act discretionary funding commencing in the 2006-07 fiscal year, and would require OSHPD to enter into an interagency agreement with the Employment Development Department to ensure compliance with the federal act's requirements. The act would require an independent evaluation of the state nursing contract program to be submitted to the Legislature and Governor by October 1, 2010. The act would not require OSHPD to implement its provisions until funding becomes available. The act would make these provisions inoperative on April 1, 2011, and would repeal them as of January 1, 2012.

**Special education: foster children**

This bill would require the State Department of Education to ensure that the California School Information Services' system meets the needs of pupils in foster care and includes disaggregated data on pupils in foster care. This bill would require a local educational agency that has placed an individual with exceptional needs residing in a licensed children's institution or foster family home in a nonpublic, nonsectarian school to conduct an annual evaluation, as part of the annual individualized education program process, of whether the placement is the least restrictive environment that is appropriate to meet the pupils' needs. The bill would require the nonpublic, nonsectarian school to report to the local educational agency that made the placement, on a quarterly or trimester basis, as appropriate, the educational progress demonstrated by the individual with exceptional needs towards the attainment of the goals and objectives specified in the individual's individualized education program. This bill would provide that any educational funds received from a local educational agency for the educational costs of individuals with exceptional needs it has placed in nonpublic, nonsectarian schools are to be used solely for those purposes and not for the costs of a residential program. This bill would require the State Department of Education to implement a program, as provided, to integrate individuals with exceptional needs placed in nonpublic, nonsectarian schools.

**Status:** Halted byСПA (6/14/04)

**Healthy Families Program**

Haynes

Existing law establishes the Healthy Families Program, administered by the Managed Risk Medical Insurance Board, to arrange for the provision of health care services to eligible children meeting household income requirements. This bill would declare the intent of the Legislature to enact legislation relating to the Healthy Families Program.

**Status:** From printer. May be heard in committee 3/7. (last activity 2/6/04)

AB 1913

**Foster care providers: evaluation and criminal records checks**

(1) Existing law sets forth circumstances under which a minor may be adjudged a dependent child of the juvenile court, and establishes procedures to determine the temporary placement of a dependent child. Existing law authorizes temporary placement of a minor child in the home of an able and willing relative, or an able and willing nonrelative extended family member, upon completion of an assessment of the suitability of the relative or nonrelative extended family member by the county welfare department. Under existing law, the standards used to evaluate and grant or deny approval of the home of a relative or nonrelative extended family member for the placement of a child are required to be the same standards as set forth in regulations for licensing foster family homes. Under existing law, these provisions become inoperative and are to be replaced with similar provisions on January 1, 2006. Existing law separately provides for Aid to Families with Dependent Children (AFDC) for children who have been removed from their homes in certain instances. This bill would delete the date upon which the above provisions become inoperative and would repeal the alternative provisions. The bill would require, immediately following the placement of a child in the home of a relative or a nonrelative extended family member that the county welfare department evaluate and approve or deny the home for purposes of AFDC-FC eligibility. By expanding the duties of county welfare departments in this regard, the bill would impose a state-mandated local program. (2) Existing law requires the county social worker to visit the home of a relative or prospective guardian who is not a licensed or certified foster parent, prior to placing the child in that home, to ascertain the appropriateness of the placement. Existing law also requires the court or county social worker to initiate a state and federal criminal records check through the California Law Enforcement Telecommunications System, and within 5 days after that to initiate a fingerprint clearance check of the person through the Department of Justice. Existing law requires the court and county social worker to consider the home of the person for placement of the child, if the fingerprint clearance check indicates that the person has no criminal record. Existing law provides until January 1, 2005, that the child shall not be placed in the home of the person if the fingerprint clearance check indicates that the person has been convicted of a crime that would preclude licensure as a community care facility, unless a criminal records exemption approved by the Director of Social Services has been granted by the county. This bill would revise these provisions, including extending their application to January 1, 2010, authorizing the placement of a child, based on the results of the criminal records check, instead of the fingerprint clearance check, and making other, technical changes.

**Status:** CHAPTERED (8/30/04)

AB 2026

**Youth pilot program: extension**

Hancock

Existing law authorizes designated participating counties to establish a child and family interagency coordinating council to implement various aspects of a youth pilot program. Under the pilot program, various children's services funds may be transferred to a designated county fund for services for children and families. Existing law requires the program to be implemented on January 1, 1995, July 1, 1995, or January 1, 1996, and terminates the program on July 1, 2004. This bill would, with certain exceptions, extend the operative duration of the youth pilot program to January 1, 2009.

**Status:** CHAPTERED (7/13/04)

Source: www.leginfo.ca.gov
Group homes: foster care

(1) Existing law requires a community care facility providing residential care for 6 or fewer persons, with certain exceptions, to provide a procedure approved by the licensing agency for immediate response to incidents and complaints. This bill would apply similar procedures for responding to incidents and complaints against a group home facility, as defined, that is not subject to the existing procedures relating to incidents and complaints. The bill would require facilities to establish these procedures on or before July 1, 2005. (2) This bill would authorize a county to develop a cooperative agreement with the State Department of Social Services to access disclosable public record information from an alternative automated license information system concerning substantiated complaints for children placed in group home facilities located within the county. This bill would authorize the department to transmit copies of all inspection reports to the county in which a group home facility is located if requested by the county. The bill would require a group home facility, not less than 30 days prior to the anniversary of the effective date of the license of the group home facility, at the request of the county in which the facility is located, to transmit copies of all incident reports of the facility that involved a response by local law enforcement or emergency services personnel. It would require the group home facility, prior to transmitting copies of the incident reports to the county, to redact the name of any child referenced in the reports, and other related identifying information. The bill would authorize a placement agency to review these incident reports to ensure that the group home facility has taken appropriate action to ensure the health and safety of its residents. The bill would authorize the department, when it periodically reviews the record of substantiated complaints against each group home facility, pursuant to its oversight authority, to determine whether the nature, number, and severity of incidents upon which complaints were based constitute a basis for concern as to whether the provider is capable of effectively and efficiently operating the program, and if the department determines that there is cause for concern, to contact the county in which a group home facility is located and placement agencies in other counties using the group home facility, and request their recommendations as to what action, if any, the department should take with regard to the provider's status as a licensed group home provider.

Status: CHAPTERED (9/28/04)

Health care: provider enrollment and certification

Under existing law, the State Department of Health Services licenses and regulates primary care clinics. Existing law provides for the Child Health and Disability Prevention Program, under the supervision of the department of, pursuant to which certain health and disability prevention treatment services are provided to eligible children. Existing law provides for the Medi-Cal program, administered by the department, under which qualified low-income persons are provided with health care services, including prescription benefits. Existing law creates the Perinatal Services Program, under the Medi-Cal program, to provide assistance to pregnant women and infants up to one year of age in families of qualifying incomes. Existing law requires the delivery of timely and continuing prenatal care during a period of presumptive eligibility pending a determination of eligibility under the application and eligibility determination and redetermination processes in the implementation of the Medi-Cal program. Existing law provides for the delivery of comprehensive clinical family planning services to any person who has a family income at or below 200% of the federal poverty level, and who is eligible to receive these services pursuant to a federal waiver under the Family Planning, Access, Care, and Treatment (Family PACT) Waiver Program as a covered benefit under the Medi-Cal program. This bill would require the department to implement on or before July 1, 2005, a process that allows an applicant for licensure as a primary care clinic to submit an application for review of the clinic's qualifications for participation in any of the above-described programs simultaneously with any review for enrollment and certification as a provider in the Medi-Cal program, and if approved for participation in a program, to be enrolled or certified, or both, as a provider in the program subsequent to certification and enrollment as a provider in the Medi-Cal program.

Status: CHAPTERED (9/10/04)

Abortion: fetal pain

Existing law, the Therapeutic Abortion Act, contains provisions regarding abortions, including a requirement that the procedure be performed by a physician and surgeon. This bill would, for an
abortion performed in the 3rd trimester of pregnancy, require the physician performing the abortion to offer to the pregnant woman information and counseling on fetal pain and offer to the pregnant woman anesthesia for the fetus. The bill would require the physician to arrange for anesthesia to be administered, if the pregnant women voluntarily consents to administration of anesthesia for the fetus. The bill would require the pregnant woman to sign a document that information and counseling on fetal pain was provided and that the physician offered anesthesia for the fetus.

**Status:** Referred to Assembly Committees on Health and Judiciary. (last activity 3/18/04)

**AB 2417**  
**Continuous child abuse**  
Jackson Existing law provides that it is a crime punishable by imprisonment in a county jail for a period not to exceed 6 months, or a fine not to exceed $1,000, or by both that fine and imprisonment to willfully cause or permit any child to suffer, or inflict thereon unjustifiable physical pain or mental suffering, or having the care or custody of any child, to willfully cause or permit the person or health of that child to be injured, or to willfully cause or permit that child to be placed in a situation where his or her person or health is endangered. Existing law provides that if a person is convicted of these provisions and probation is granted, the court shall require certain minimum conditions of probation, as specified. Contingent on voter approval of a proposed initiative measure that would limit the application of the three-strikes law, this bill would provide that any person convicted of a violation of these child abuse provisions within 7 years of a previous conviction of these provisions or of provisions proscribing cruel or in humane corporal punishment of a child resulting in a traumatic condition is punishable by imprisonment in a county jail for a period not to exceed one year, or by imprisonment in the state prison for 16 months, 2, or 3 years. Also contingent on the approval of that initiative, this bill would define the crime of continuous physical abuse of a child as engaging in 3 or more acts of child abuse, as defined above, by any person who either resides in a home with a minor child or has reoccurring access to a child, over a period of time not less than 3 months in duration. This bill would provide that this crime shall be punished by imprisonment in a county jail for a period not to exceed one year, or in the state prison for 16 months, 2 or 3 years.

**Status:** Withdrawn from Assembly Com. on Pub. S. Re-referred to Com. on Rules. (last activity 6/28/04)

**AB 2496**  
**Child Welfare Services Program Improvement Fund**  
Shirley Horton Under existing law, the state, through the State Department of Social Services and county welfare departments, maintains a public system of statewide child welfare services, to use the strengths of families and communities to serve the needs of children who are alleged to be abused or neglected, to reduce the necessity for removing these children from their homes, to encourage speedy reunification of families when it can be safely accomplished, to locate permanent homes and families for children who cannot return to their biological families, to reduce the number of placements experienced by these children, to ensure that children leaving the foster care system have support within their communities, to improve the quality and homelike nature of out-of-home care, and to foster the educational progress of children in out-of-home care. This bill would establish the Child Welfare Services Program Improvement Fund in the State Treasury, consisting of private grants, gifts, or bequests made to the state. Upon appropriation by the Legislature, moneys in the fund would be expended for the purpose of enhancing the state's ability to provide a comprehensive system of supports that promote positive outcomes for children and families. The bill would require the department to use moneys in the fund as a match to obtain federal participation in the cost of eligible activities, and to augment federal, state, and county funds made available for the child welfare services program. The bill would include legislative intent regarding possible uses for the funds.

**Status:** CHAPETERED (7/16/04)

**AB 2531**  
**Child abuse reporting**  
Bates Existing law establishes the Child Abuse and Neglect Reporting Act (CANRA), which requires specified persons to report to a specified agency whenever the mandated reporter, in his or her professional capacity or within the scope of his or her employment, has knowledge of or observes a child whom the mandated reporter knows or reasonably suspects has been the victim of child abuse or neglect. Failure to report an incident is a crime punishable by imprisonment in a county jail for a period of 6 months, a fine of up to $1,000, or by both that imprisonment and fine. This bill would...
add any person providing in-home supportive services to a child, as specified, to the list of individuals who are mandated reporters.

**Foster care: psychotropic medication**  
Existing law provides for the placement of certain children in foster care, and also provides for child welfare services, which are public social services directed toward, among other purposes, protecting and promoting the welfare of all children, including those in foster care placement. This bill would require the State Department of Social Services to conduct a study of the administration of psychotropic medications to children in foster care in certain counties as compared to a group of young people in the general population. This bill would also require the department to provide the results of the study to the appropriate policy and fiscal committees of the Legislature on or before July 1, 2006.

**Status:** In Asm. Appropriations Com. Held under submission. (last activity 5/19/04)

**AB 2774**

**Richman**  
**Development centers**  
Existing law vests in the State Department of Developmental Services jurisdiction over state hospitals referred to as developmental centers for the provision of residential care to persons with developmental disabilities. Existing law requires the State Department of Developmental Services to comply with procedural requirements when closing a developmental center, including submitting a plan to the Legislature and holding at least one public hearing. Under existing law, the department allocates funds to private nonprofit entities known as regional centers, which are required to provide, or arrange for the provision of, services and supports for persons with developmental disabilities. This bill would require the State Department of Developmental Services to close 4 developmental centers by 2016, would authorize the department to sell or lease at fair market value the state-owned property of developmental centers that are closed and would require that the proceeds be placed in the State Developmental Services Community Living Fund, established by the bill, which would be required to be used by the department, upon appropriation by the Legislature, for displaced consumer needs. The bill would require the department to conduct a study regarding the need for the establishment of new facilities, including, but not limited to, secured treatment facilities, regional developmental centers, and other housing needs, and to report to the Legislature by January 1, 2006.

**Status:** In Asm. Appropriations. Held under submission. (last activity 5/19/04)

**AB 2845**

**La Suer**  
**Behavioral interventions**  
Existing law requires the Superintendent of Public Instruction to develop and the State Board of Education to adopt regulations governing the use of appropriate behavioral interventions with individuals with exceptional needs receiving special education and related services. This bill would provide that a person recognized by the national Behavior Analyst Certification Board as a Board Certified Behavior Analyst qualifies as a behavioral intervention case manager of a school district, special education local plan area, or county office of education and may conduct behavior assessments and provide behavioral intervention services for individuals with exceptional needs.

**Status:** CHAPTERED (7/16/04)

**AB 2873**

**Garcia**  
**Child abuse prevention: citizen review panels**  
Existing law establishes the Office of Child Abuse Prevention in the State Department of Social Services, for the purpose of planning, improving, developing, and carrying out programs and activities relating to the prevention, identification, and treatment of child abuse and neglect. Existing federal law generally requires every state that receives a federal grant for child abuse and neglect prevention treatment programs to establish not less than 3 child abuse citizen review panels. Existing federal law requires a citizen review panel to examine the policies, procedures, and practices of state and local agencies, and where appropriate, specific cases, to evaluate the extent to which state and local agencies are effectively discharging their child protection responsibilities. Existing federal law prevents members of a citizen review panel from disclosing information about any specific child protection case, subject to civil sanctions to be imposed by the state. This bill would conform state law to federal law regarding the establishment and duties of a citizen review panel. The bill would provide that a violation of the bill's confidentiality requirements may be punishable by a $500 civil
fine.

**Status:** CHAPTERED (8/30/04)

Machado

*Community care facilities: crisis nurseries*

Existing law provides for the licensure and regulation by the State Department of Social Services of community care facilities, including facilities that provide care for children. Violation of the provisions relating to community care facilities is a misdemeanor. This bill would include a crisis nursery, as defined, within the provisions regulating a community care facility. Since a violation of the provisions applicable to community care facilities is a crime, this bill would impose a state-mandated local program. This bill would provide that exceptions to group home licensing regulations, in effect on August 1, 2004, for county-operated or county-contracted emergency shelter care facilities shall be contained in regulations for crisis nurseries. It would allow modified staffing levels in crisis nurseries, and would require the department to permit the use of volunteers as caregivers in a crisis nursery if certain conditions are met. Among these conditions is a requirement that the volunteers be fingerprinted for the purpose of conducting a criminal record review. Because a criminal record review includes a requirement that the person also sign a declaration under penalty of perjury regarding any prior criminal convictions, this bill would expand the definition of the crime of perjury, thereby imposing a state-mandated local program. Existing law provides for the Aid to Families with Dependent Children-Foster Care (AFDC-FC) program, under which, pursuant to a combination of federal, state, and county funds, aid on behalf of eligible children is paid to foster care providers. This bill would include a crisis nursery among the facilities eligible to receive reimbursement under the above program when a child is placed in such a facility, and would require the department to the extent federal financial participation is available, to set this reimbursement rate.

*Hospitals: maternity services: infant funding assistance*

Under existing law, the State Department of Health Services regulates the licensure and operation of health facilities, including general acute care hospitals. Violation of these provisions is a crime. This bill would recommend that a general acute care hospital provide or arrange for the provision of basic lactation management training, and safe preparation and appropriate bottle feeding techniques of infant formula for all health care practitioners who are permitted to provide these services and who regularly work the majority of their hours in the hospital maternity unit and nursery. This bill would require any manufacturer of infant formula that markets infant formula and distributes free infant formula samples in the maternity unit, nursery, or any other location in a hospital that allows the marketing and distribution of infant formula to include a single, readable disclaimer notice with specific language affixed prominently and clearly to the discharge bag. The bill would also prohibit the display of these products, or placards or posters concerning these products provided by a manufacturer or distributor of infant formula. The bill would also prohibit a hospital from acting as an agent for distribution of infant formula. This bill would authorize the department to establish a task force of interested parties to consider models that support breastfeeding, including the "Baby Friendly" model, as defined by the World Health Organization, and to develop plans to effectively transition interested and able hospitals to adapt to these models. This bill would require the task force, within 3 years of its establishment, to generate a report on its activities and recommendations to the Legislature. This bill would declare legislative intent that the task force operate as a subcommittee of the state Breastfeeding Promotion Advisory Committee. Activities of the task force would be conducted within the existing resources of the department and private resources and funding.

**Kuehl**  

*Child abuse reporting*

1. This bill would define the willful harming or injuring of a child or the endangering of the person or health of a child, for purposes of these provisions.  
2. Existing law identifies those persons who are mandated reporters for purposes of these provisions. This bill would specify that volunteers of public and private organizations whose duties include direct contact with and supervision of children are not mandated reporters but are encouraged to report instances of child abuse and neglect.  
3. Existing law outlines the substance of training with regard to the duties imposed by these provisions but provides that a mandated reporter who does not receive this training shall not be excused from his or her duty as a mandated reporter. This bill would provide that employers are strongly encouraged to provide their employees who are mandated reporters with training in the duties imposed upon them by these provisions and would require employers to provide a statement containing specified information, as well as copies of specified provisions, whether or not an employer provides training in child abuse and neglect identification and reporting. This bill would also provide that public and private organizations are encouraged to provide their volunteers whose duties include direct contact with and supervision of children with training in identifying and reporting child abuse and neglect.  

(This bill makes additional changes regarding mandatory reporting of child abuse.)

**Status:** CHAPTERED (9/29/04)
SB 1343

Child care: infant and toddler care master plan

Existing law, the Child Care and Development Services Act, requires the Superintendent of Public Instruction to develop standards for the implementation of quality programs. Existing law requires the Superintendent of Public Instruction to develop the state plan for child care and development services in collaboration with prescribed agencies and requires the State Department of Education to coordinate the state plan required under federal law with the state's master plan for child care and development. This bill would require the Superintendent of Public Instruction, working with a senior consultant who has expertise in early care and education, to develop recommendations for a master plan for infant and toddler care in consultation and collaboration with a task force established by the superintendent and comprised of prescribed members.

Status: VETOED (9/29/04)

SB 1364

Developmental disabilities

Existing law, the Lanterman Developmental Disabilities Services Act, establishes the State Council on Developmental Disabilities with 29 voting members, who, among other qualifications, are persons with developmental disabilities or parents, siblings, guardians, or conservators of these persons. This bill would revise the qualification of members appointed to the council including, but not limited to, substituting "immediate relatives" for "sibling" would revise the qualification of the chair and vice chair, and would make conforming changes.

Status: CHAPTERED (6/25/04)

SB 1525

Health care: breast cancer and cervical cancer screening: family planning services

Existing law requires the State Department of Health Services to provide breast cancer and cervical cancer screening services under a federal grant made under the federal Centers for Disease Control and Prevention breast and cervical cancer early detection program to eligible low-income individuals. A provider or entity that participates in the grant program may only render screening services to an individual if the provider or entity determines that the individual's family income does not exceed 200% of the federal poverty level. Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Services, pursuant to which medical benefits are provided to public assistance recipients and other low-income persons. Pursuant to a federal waiver, the Medi-Cal program administers a program known as the Family Planning, Access, Care, and Treatment (Family PACT) Waiver Program, under which comprehensive clinical family planning services are provided to any person who has a family income at or below 200% of the federal poverty level and who is eligible to receive those services pursuant to the terms of the waiver. These services include a comprehensive health history that is periodically updated and that includes a complete obstetrical history, gynecological history, contraceptive history, personal medical history, health risk factors, and family health history, including genetic or hereditary conditions, and a complete physical examination on initial and subsequent periodic visits. Existing law establishes the Office of Family Planning in the State Department of Health Services. This bill would require the Family PACT Program within the Office of Family Planning to administer the breast and cervical cancer early detection program. This bill also would rename the Family Planning, Access, Care, and Treatment (Family PACT) Waiver Program, as the Family Planning, Access, Care, and Treatment (Family PACT) Program.

Maternity services

Existing law provides for the regulation of health insurers by the Department of Insurance. Under existing law, a health insurer that provides maternity coverage may not restrict inpatient hospital benefits and is required to provide notice of the maternity services coverage. This bill would require a health insurer to provide coverage for maternity services, as defined.

Status: VETOED (9/2/04)

SB 1593

Coerced abortion: patient assurance

Existing law requires that the State Department of Health Services ensure that each patient receiving services under the Medi-Cal program be given full and complete information regarding health care services available from various health care providers, including a written statement to the effect that
some hospitals and other providers do not provide one or more of various reproductive health care services. This bill would, commencing January 31, 2005, prohibit Medi-Cal funding of an abortion unless the physician and surgeon has obtained the written assurance from the patient that she understands that she may not be coerced into having an abortion, and that her decision to have an abortion is voluntary. The bill would require the Director of Health Services to notify providers of these requirements prior to January 31, 2005.

SB 1692  
**Pupil health: vision appraisal**  
Vasconcellos  
Existing law requires, upon first enrollment in a California school district of a pupil at a California elementary school, and at least every 3rd year thereafter until the pupil has completed the 8th grade, the pupil's vision to be appraised by the school nurse or other authorized person, as specified. This bill would also require that if a vision appraisal is conducted, each pupil is to receive a notice and questionnaire regarding pupil vision, as specified. The bill would require each school to commence that distribution no later than September 1, 2005. The bill would, in addition, set forth the text of the notice and the manner in which the State Department of Education is required to develop the questionnaire. The bill would provide that the notice and questionnaire may be included with any other written communication sent to a parent or guardian and that in the interest of efficiency a school may suspend the distribution of the notice and questionnaire until the next reprinting of other written communication delivered to a parent or guardian. By imposing additional duties on school districts relating to vision appraisals, this bill would impose a state-mandated local program. This bill would authorize the department to amend the notice and questionnaire after consultation with qualified eye care professionals.

**Status:** VETOED (9/21/04)

SB 1825  
**Foster Care Children's Agency**  
Alarcon  
Existing law declares legislative intent to remove a child from the custody of his or her parents only when necessary, and to provide family reunification services, for expeditious reunification of the child with his or her family. Under existing law, the State Department of Social Services has responsibilities relating to children in foster care, including, but not limited to, distributing information, providing outreach services, and providing training and technical assistance to counties. This bill would require the Director of Social Services to establish the Foster Care Children's Agency, to ensure cooperation between state and local agencies in the provision of services to children in foster care. The bill would set forth the duties of the department, relating to serving children who have been placed in foster care multiple times, and removing financial incentives for breaking up families when children are placed in foster care.

SB 1860  Community-based foster care pilot program
Bowen
Existing law relating to foster care placement declares the intent of the Legislature to preserve and strengthen a child's family ties whenever possible, and to remove a child from the custody of his or her parents only when necessary for his or her welfare or for the safety and protection of the public. Existing law also makes provision for the certification, licensing, and training of foster care providers. This bill would declare legislative intent to establish a community-based foster care pilot program, modeled after the Neighbor to Neighbor Program implemented in Chicago. The bill would require the State Department of Social Services to award a grant to a nonprofit organization for the establishment and implementation of the 3-year pilot program, for which foster care providers would be recruited from the community and provided with training, salary, and benefits. The bill would set forth other components of the pilot program, relating to, among other things, keeping sibling groups together, involvement of birth parents, reunification services, and case management duties. This bill would require the department to provide the program grant recipient with oversight and technical assistance. It would require the grant recipient to consult with the department to establish appropriate reporting and monitoring requirements for the program.

Statewide health planning and development: hospitals: self-pay policies
This bill would require each general acute care hospital, acute psychiatric hospital, and special hospital to develop a self-pay policy specifying how the hospital shall determine the prices to be paid by self-pay patients, as defined. The bill would require the self-pay policy to include a section addressing charity care patients. It would require each hospital to perform various functions in connection with the hospital self-pay policy, including notifying patients of the policy, and attempting to determine the availability of private or public health insurance coverage for each patient. The bill would also specify billing and collection procedures to be followed by a hospital, its assignee, collection agency, or billing service. This bill would require each hospital to submit to the office a copy of the hospital's self-pay application. The bill would authorize the office to develop a uniform self-pay application to be used by all hospitals. The bill would require each hospital to provide information to the office, including a copy of the hospital's self-pay policy.

Health care coverage
This bill would declare the Legislature's intent to increase the number of Californians who have affordable, high quality health care coverage by (a) Establishing a "pay or play" system under which an employer with 51 or more employees is required either to provide quality health care coverage that includes prescription drug benefits for his or her employees and their dependents or to pay a fee so that his or her employees and their dependents may obtain coverage from a statewide pool. (b) Establishing a purchasing pool to be operated by the Managed Risk Medical Insurance Board to provide health care coverage for employees and their dependents of employers who do not provide coverage directly. (c) Maximizing federal financial participation in health care coverage for individuals eligible for the Healthy Families and Medi-Cal programs through a premium assistance program that allows eligible employees to enroll in employment-based coverage with reimbursement from the state for the employee's share of the premium and for the cost of any benefits or services required by those programs that are not covered under the employer's plan. (d) Providing assistance to small employers for the cost of covering their employees and to employees who cannot afford their share of the premium costs. For those employers who are not subject to the "pay or play" requirements, assistance would be intended to serve as an incentive to purchase coverage.

**Prescription drugs**  
This bill would require the department to establish the California Rx Prescription Drug Web site on or before July 1, 2005, to provide information to California residents about options for obtaining prescription drugs at affordable prices. It would require that the Web site, at a minimum, provide information about, and establish electronic links to, specified programs, pharmacies that are located in Canada and that meet specified requirements, and other Web sites. The bill would authorize the department to assess a fee from Canadian pharmacies that the department reviews for possible inclusion on the Web site to offset the cost of reviewing them. The bill would require the department's Web site to include price comparisons of prescription drugs, including prices charged by licensed pharmacies in the state and Canadian pharmacies that provide mail order service to the United States and whose Web sites are linked to the department's. The bill would also require the department to ensure that the Web site is coordinated with and does not duplicate other Web sites that provide information about prescription drug options and costs. In addition, the bill would require that the department include (1) notice on the Web site that informs consumers, among other things, about state and federal laws governing the importation of prescription drugs and (2) a statement that the state accepts no legal liability with respect to any product offered or pharmaceutical services provided by a pharmacy linked to the Web site.

**Community colleges: nursing programs**  
Existing law establishes the California Community Colleges under the administration of the Board of Governors of the California Community Colleges. Existing law authorizes the establishment of community college districts under the administration of community college governing boards, and authorizes these districts to provide instruction at community college campuses throughout the state. This bill would require each community college in the state that operates an associate degree nursing education program to implement merit-based admissions criteria for applicants to that program no
later than the 2006-07 academic year. The bill would require that the admissions criteria include, but not necessarily be limited to, overall college grade point average, grade point average in English classes, grade point average in core biology classes, and the number of times any one of the core biology classes was repeated. The bill would authorize community colleges that operate associate degree nursing programs to waive or supplement these criteria by adding or substituting a factor or factors found, by appropriate faculty or administrators of that community college, after identifying, conducting, or contracting for a pertinent validation study, to be consistent with relevant state and federal statutes and regulations. The bill would require each community college that operates an associate degree nursing education program to be responsible for tracking admissions data for all applicants to that program who have provided complete applications, including both admitted and nonadmitted applicants, to determine whether there is a disproportionate impact on any group of applicants as outlined in federal law and regulations. If the use of the factors set forth in the bill results in disproportionate impact, the bill would require the community college to make good-faith efforts to mitigate that impact

**Health care and insurance benefits**

Kehoe

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans and makes a violation of the act's provisions a crime. Existing law also provides for the regulation of health insurers and all other forms of insurance by the Department of Insurance. Under existing law, health care service plans and health insurers are required to offer coverage for the domestic partner of an employee, subscriber, insured, or policyholder to the same extent and subject to the same terms and conditions as provided to a dependent of those persons. This bill would require a health care service plan and a health insurer to provide coverage to the domestic partner of an employee, subscriber, insured, or policyholder that is equal to the coverage it provides to the spouse of those persons. The bill would extend this requirement to all other forms of insurance regulated by the Department of Insurance and would deem that all of those policies as well as health care service plans and health insurance policies issued, amended, delivered, or renewed in this state on or after January 1, 2005, or January 2, 2005, as specified, provide domestic partner coverage equal to that provided to spouses.

**Parkinson’s disease registry**

Frommer

Existing law requires the State Department of Health Services to conduct a program of epidemiological assessments of the incidence of cancer and establish a system for the collection of information determining the incidence of cancer. Pursuant to these provisions, existing law authorizes the department to designate demographic parts of the state as regional cancer incidence reporting areas and establish regional cancer disease registries. Existing law requires any hospital or other facility providing therapy to cancer patients and health care practitioners diagnosing or providing treatment to cancer patients within a cancer reporting area to report each case of cancer to the department or the authorized representative of the department in a format prescribed by the department. Information collected pursuant to this registry is confidential, except as provided. This bill would require the department to conduct a similar program of epidemiological assessments of the incidence of Parkinson's disease and establish a similar system for the collection of information...
determining the incidence of Parkinson's disease.

**Status:** CHAPTERED (9/30/04)

**AB 2285**

*Medi-Cal: proof of eligibility*

(1) Existing law establishes the Medi-Cal program, which is administered by the State Department of Health Services and under which qualified low-income persons receive health care services. Existing law provides that it is the responsibility of the Medi-Cal beneficiary to provide information and evidence of Medi-Cal eligibility to that person's provider if that information is requested by the provider prior to rendering services to that beneficiary. Existing law provides that it is the responsibility of the provider prior to rendering Medi-Cal reimbursable services to persons presenting themselves as Medi-Cal beneficiaries to make a good faith effort to verify the person's identity, if the person is not known to the provider, otherwise payment for those services may later be disallowed by the department. This bill, commencing January 1, 2006, would provide that it is the responsibility of a hospital that has provided medical services to provide to any hospital-based provider of services that provided services at the hospital, all Medi-Cal eligibility documentation necessary for that provider to obtain reimbursement from the Medi-Cal program. The documentation would be required by the bill to be provided to all providers who bill separately and who rendered services during the encounter for which the hospital is submitting a claim as soon as the proof of eligibility is supplied by the person presenting themselves as a Medi-Cal beneficiary. (2) Under existing law, medically needy persons, medically needy family persons, and state-only Medi-Cal persons are not entitled to receive health care services during any month in which their share of cost, if any, has not been met. Share of cost is determined on a monthly basis. Existing law prohibits a Medi-Cal provider who has obtained a label or copy of a beneficiary's Medi-Cal card or other proof of eligibility from seeking reimbursement or attempting to obtain payment from an eligible Medi-Cal applicant or recipient. This bill would prohibit a provider from seeking an amount that exceeds the share of cost, if any, of a person or family under the Medi-Cal program. (3) Existing law provides that a beneficiary, or any person on behalf of the beneficiary, who pays for medically necessary health care services, otherwise covered by the Medi-Cal program, is entitled to a return of the payment from the provider or the department, if the payment meets 3 criteria, including if the payment was rendered 90 days prior to the issuance of a Medi-Cal card. Existing law authorizes the department to take enforcement actions against a provider who fails or refuses to reimburse a beneficiary who has paid for services under this provision. This bill would provide that if a provider seeks reimbursement in violation of the prohibitions described above, regarding seeking reimbursement after obtaining proof of eligibility and seeking an amount in excess of a person's or family's share of cost, the beneficiary, or any person on behalf of the beneficiary, who pays for medically necessary health care services, otherwise covered by the Medi-Cal program, is entitled to a return of the payment from the provider or the department, if the payment meets 6 criteria. If a beneficiary or any person on behalf of the beneficiary notifies the department that the provider is seeking or has sought reimbursement in violation of these provisions, the bill would require the department to notify the provider, among other things, that continued attempts to obtain payment directly from a beneficiary may result in sanctions. The bill would authorize the department to take enforcement actions against a provider who seeks reimbursement after this notice by the department and would require that the department take one or more enforcement actions against a provider who fails or refuses to reimburse, as required under these provisions, a beneficiary who has paid for services.

**AB 2731**

**Medi-Cal: provider reimbursement**

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Services, pursuant to which medical benefits are provided to public assistance recipients and other low-income persons. This bill would state the intent of the Legislature to enact legislation to provide a special reimbursement program designed to preserve economically endangered facilities that offer access for Medi-Cal beneficiaries and uninsured and underinsured patients to certain essential hospital services, including emergency room services, obstetrical services, and neonatal intensive care services.

**Health care coverage**

Existing law provides for regulation of health care service plans by the Department of Managed Health Care Providers Bill of Rights

**Status:** In Senate Appropriations. Failed passage. (last activity 8/17/04)
Richman

Existing law provides for regulation of health insurers by the Insurance Commissioner. A willful violation of the provisions governing health care service plans is a crime. This bill, on and after January 1, 2005, would require a health care service plan or health insurer issuing individual plan contracts or individual policies of health insurance and that ceases to offer individual coverage in this state, to continue to provide coverage to the subscribers or policyholders who had been covered by those contracts and policies at the time of withdrawal under certain terms and conditions. The bill would also require a health care service plan that ceases to offer individual coverage in a service area other than coverage provided by a preferred provider organization, to continue to offer that coverage to subscribers who had been covered by those contracts at the time of withdrawal if it continues to offer group coverage in the service area. The bill would also provide that these provisions would not apply when a plan participating in a contract to provide health coverage with a government entity no longer contracts with the government entity to provide that coverage in the state or a specified area of the state or when a plan ceases to offer and issue any and all forms of coverage in any part of the state after the effective date of this section.

Status: CHAPTERED (9/13/04)

AB 2766  Local human service programs

Richman

Existing law provides for the allocation of funds appropriated from the continuously appropriated Local Revenue Fund for the distribution of sales tax and motor vehicle license fee moneys to local agencies for the reallocation of state and local responsibilities in the administration of various social programs. The Local Revenue Fund is divided into various accounts and subaccounts, including the Sales Tax Growth Account, which contains, among other subaccounts, the Base Restoration Subaccount, the County Medical Services Subaccount, the General Growth Subaccount, and the Special Equity Subaccount. This bill would delete those subaccounts, revise the name of other subaccounts in that account, would add the Non-Caseload Social Services Subaccount to that account, and would make conforming changes. Existing law provides for the investment of money in the fund, and for the distribution of interest earned on that investment to the various accounts and subaccounts in the fund. Existing law provides that if any distribution of the interest would cause a subaccount to exceed its applicable limitations, the distribution is to be made among the remaining subaccounts in proportion to the amounts deposited into each subaccount in the prior 6 months. This bill would limit that distribution requirement to the distribution of funds to other subaccounts to the Caseload Growth Subaccount in the Sales Tax Growth Account, and would eliminate specific references to those provisions containing subaccount limitations. Existing law requires the Controller to deposit into the Base Restoration Subaccount, the County Medical Services Subaccount, and the Special Equity Subaccount of the Sales Tax Growth Account in the fund certain remaining unexpended of those revenues deposited into the Sales Tax Growth Account. This bill would repeal those requirements and would make conforming changes. Existing law provides for the distribution of funds remaining in the Sales Tax Growth Account of the fund, after specified distribution obligations are met, into the various subaccounts of that account according to a percentage allocation formula. This bill would revise that percentage allocation formula. Existing law provides for the allocation of funds to eligible jurisdictions with a poverty-population shortfall if deposits into certain subaccounts in the Sales Tax Growth Account are not sufficient to eliminate poverty-population shortfalls, as calculated by the Department of Finance. This bill would revise the formula for the computation of a poverty-population percentages and would make technical revisions. Existing law requires the Controller to allocate funds from the General Growth Subaccount in the Sales Tax Growth Account to local agencies in accordance with a schedule set forth in the statutes. This bill would, instead, require the allocation of funds deposited in the Non-Caseload Social Services Account to local agencies according to their percentage share of the statewide resource base allocated in the prior fiscal year. Existing law requires the Controller to allocate funds in the Special Equity Subaccount of the Sales Tax Growth Account to certain counties in an allocation percentage set forth in the statutes, and limits the amount that may be allocated to each of those local agencies. This bill would repeal that requirement.

Health care coverage
The Health Insurance Act of 2003 (SB 2, Chapter 673 of the Statutes of 2003), which is the subject of a referendum to appear on the November 2, 2004, general election ballot, creates the State Health Purchasing Program, to be administered by the Managed Risk Medical Insurance Board. Under that act, certain employers would be required to provide specified health care coverage to employees, and in the case of large employers, to dependents of employees, either by arranging for that coverage directly or through payment of a fee to the program for coverage through the program. Employees and dependents of large employers would be required to be covered beginning January 1, 2006, while employees of certain medium employers would be required to be covered beginning January 1, 2007, subject to certain conditions. This bill would suspend the requirements otherwise imposed on employers pursuant to these provisions at any time that the Employment Development Department determines that the overall unemployment rate in the state has been at 7% or higher for at least 3 consecutive months. The suspension would remain in effect for a minimum of 2 years, and would be lifted with one months' advance notice if the department determines that the overall unemployment rate in the state has been below 7% for the 3 consecutive months immediately prior to the date that the suspension is proposed to be terminated. This bill would provide that its provisions would become operative only if the voters, voting on the referendum on SB 2 (Chapter 673 of the Statutes of 2003), vote to approve that statute. Statewide health planning and development: hospitals: charity care and reduced payment policies
Existing law provides for the Office of Statewide Health Planning and Development, which is charged with enforcement of various provisions of law relating to health facilities, including hospitals, as defined. This bill, which would be operative on June 1, 2005, would require each general acute care hospital, acute psychiatric hospital, and special hospital, except a facility owned or operated by the State Department of Mental Health or the Department of Corrections, to develop a charity care and reduced payment policy, as defined, specifying the financial criteria and procedure used by the hospital to determine whether a patient is eligible for defined charity care or payment allowances, and a charity care and reduced payment application, as defined, in accordance with requirements established by the bill. It would require each hospital to perform various functions in this regard, including notifying patients of the hospital's charity care and reduced payment policy in a language-appropriate manner. The bill would authorize the office to develop a charity care and reduced payment application or standard elements for each hospital's application, in consultation with interested parties. It would also limit debt collection activities of a hospital and its agents, collection agencies, or assignees for the first 150 days after discharge of a patient who received treatment under a charity care or reduced payment policy.

Services. This bill would enact the California Public Health Act of 2004, which would, on an
unspecified date, establish the State Department of Public Health, to be headed by the State Health
Officer to be appointed by the Governor, subject to confirmation by the Senate. The bill would
transfer the responsibility for certain programs from the State Department of Health Services to the
State Department of Public Health, and would make conforming changes. This bill would also
establish the Public Health Board, consisting of 13 members, for purposes of providing public and
expert involvement in the development of policies, regulations, and programs administered by the
department or directly affecting the health of Californians.

**Status:** In Asm. Appropriations. Held in committee and under submission. (last activity 8/12/04)

**SB 921**

*Single payer health care coverage*

This bill would establish the California Health Care System to be administered by the newly created
California Health Care Agency under the control of an elected Health Care Commissioner. The bill
would make all California residents eligible for specified health care benefits under the California
Health Care System, which would, on a single-payer basis, negotiate for or set fees for health care
services provided through the system and pay claims for those services. The bill would prohibit
deductibles or copayments during the initial first 2 years of operation of the health care system, but
would authorize the commissioner to establish deductibles and copayments thereafter. The bill
would require the health care system to be operational by January 1, 2006, and would enact various
transition provisions. The bill would require the commissioner to seek all necessary waivers,
exemptions, agreements, or legislation to allow various existing federal, state, and local health care
payments to be paid to the California Health Care System, which would then assume responsibility
for all benefits and services previously paid for with those funds. The bill would create a Health
Policy Board to establish policy on medical issues and various other matters relating to the health
care system. The bill would create the Office of Consumer Advocacy within the agency to represent
the interests of health care consumers relative to the health care system. The bill would create within
the agency the Office of headed by the chief medical officer, to support the delivery of high quality
care and promote provider and patient satisfaction. The bill would create the Office of Inspector
General for the California Health Care System within the Attorney General's office, which would
have various oversight powers. The bill would extend the application of certain insurance fraud laws
to providers of services and products under the health care system, thereby imposing a state-
mandated local program by revising the definition of a crime. The bill would enact other related
provisions relative to budgeting, federal preemption, subrogation, collective bargaining agreements,
and associated matters.

Disability insurance: intoxication
Romero
Existing law generally authorizes insurers to include certain provisions in their disability insurance policies. Under existing law, a disability insurance policy may contain a provision indicating that the insurer is not liable for any loss caused by the insured being intoxicated or under the influence of any controlled substance unless administered on the advice of a physician. This bill would exempt a health insurance policy from the above policy provision.

Status: VETOED (7/08/04)

SB 1187
Medi-Cal: federally qualified health centers and rural health services
Chesbro
Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Services, pursuant to which medical benefits are provided to public assistance recipients and other low-income persons. Existing law provides that federally qualified health center (FQHC) services and rural health clinic (RHC) services, as defined, are covered benefits under the Medi-Cal program, to be reimbursed to providers on a per-visit basis, and would provide for various requirements pertaining to the reimbursement of these services. Existing law authorizes each FQHC or RHC to apply for an adjustment to the per-visit rate, and provides for the evaluation of rate change proposals based on a change in the scope of services, but prohibits a change in the costs to be considered a scope-of-service unless certain factors apply; defines visits for those purposes; and prescribes procedures and deadlines for submitting a scope-of-service change. This bill would revise the scope of those factors applicable to a scope-of-service change for any FQHC or RHC filing a consolidated cost report for multiple sites, and would authorize those entities to utilize a consolidated cost report in order to calculate costs associated with a scope-of-service change, and would revise the definition of a visit for those purposes. This bill would establish various conditions that must be met for a FQHC or RHC that provides services at a location other than a site owned by the FQHC or RHC to be directly reimbursed for those services, which reimbursement would be either at the prospective payment rate or at a fee-for-service rate. This bill would provide that encounters with more than one health professional and multiple encounters with the same health professional that take place on a single day and at a single location constitute a single visit for reimbursement purposes, unless certain conditions apply.

Substance related disorders
Chesbro
Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health Care and makes a violation of the act's requirements a crime. Existing law also provides for the licensure and regulation of health insurers by the Department of Insurance. Existing law requires a health care service plan and a health insurer to offer coverage for the treatment of alcoholism. Under existing law, the Public Employees' Medical and Hospital Care Act, the Public Employees' Retirement System (PERS) arranges for the provision of health care benefits to public employees and annuitants. This bill would require a health care service plan and health insurer to provide coverage for the medically necessary treatment of substance-related disorders, excluding caffeine and nicotine related disorders, on the same basis as coverage is provided for any other medical condition. The bill would authorize a plan and insurer to limit nonhospital residential care, as defined, to 60 days per calendar year and outpatient care to 20 visits per calendar year. The bill would make implementation of its
provisions contingent on PERS determining that it would be cost neutral with regard to PERS’ substance abuse treatment benefit package.

SB 1196
Cedillo

Health care applications

This bill would authorize the sharing of the school lunch program application for purposes of the Healthy Families Program and any other applicable county- or local-sponsored health insurance program if a pupil is determined to be ineligible for Medi-Cal coverage and if the parent or guardian has consented to the sharing of information. This bill would require the county agency responsible for administering the Medi-Cal program to forward the school lunch application to the Healthy Families Program and to county- and local-sponsored health insurance programs if a pupil is determined to be ineligible for Medi-Cal coverage through the accelerated eligibility determination process and if the parent has previously provided consent. The bill would delete the requirement for the county to send a Healthy Families Program application in that case. The bill would authorize schools to designate non-food service staff to assist in the administration of school lunch program applications.

Medi-Cal: eligibility determinations

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Services, pursuant to which medical benefits are provided to public assistance recipients and other low-income persons. Under existing law, counties are responsible for the implementation of eligibility determinations under the Medi-Cal program. This bill would provide that for purposes of determining eligibility for benefits under the Medi-Cal program, a recipient or applicant may certify his or her available income and available resources. This bill would also disregard assets in the determination of eligibility for any member of a family with an income that does not exceed an unspecified level and in the case of assets owned by parents of children who are eligible for benefits under the Medi-Cal program. (There is one other provision requiring a cost-benefits analysis be conducted of treatment authorization requests)

Status: Referred to Senate Com. on H. & H.S. (last activity 3/4/04)

Health facilities: hospital-acquired infection

Existing law provides for the licensure and regulation by the State Department of Health Services of health facilities, including general acute care hospitals, acute psychiatric hospitals, and special hospitals. A violation of these provisions by a health facility is a crime. Existing law requires health facilities to file various reports containing health facility data with the Office of Statewide Health Planning and Development. This bill would require those facilities to have a written infection control program for the surveillance, prevention, and control of infections, under the oversight of a multidisciplinary team. Existing law requires every organization that operates, conducts, owns, or maintains a health facility, and the officers thereof, to make and file with the office certain health data and requires hospitals to provide to the office a hospital discharge abstract data record. This bill would require a hospital to provide certain infection rate data to the office that would be available to the public. The provisions of the bill would become operative on July 1, 2005, inoperative on October 1, 2012, and would be repealed on January 1, 2013.

Status: VETOED (9/30/04)

State mandates: reimbursement

(1) Under the California Constitution, whenever the Legislature or a state agency mandates a new program or higher level of service on any local government, the state is required to provide a subvention of funds to reimburse the local government, with specified exceptions. Existing statutory law establishes a procedure for local government agencies to file claims for reimbursement of these costs with the Commission on State Mandates. This bill would define the costs eligible for reimbursement under these provisions as including only costs in addition to those costs previously incurred, including any costs of discretionary efforts to implement the program or service prior to enactment of the mandate, unless the Legislature specifies that the previously optional costs are to be reimbursed; only those costs of providing, in the most cost-effective manner, the minimum level of program or service necessary to comply with the mandate; and only costs up to a maximum level specified in legislation. (2) Existing law provides that when a local government submits a test claim for reimbursement, the commission is required to issue a statement of decision as to whether the claim constitutes a mandate and to adopt parameters and guidelines for submission of claims on that mandate. The test claimant is required to submit proposed parameters and guidelines within 30 days of adoption of a statement of decision. This bill would require the commission, no less then 60 days prior to the anticipated date of adoption of parameters and guidelines, to submit the proposed parameters and guidelines to the chairpersons of the fiscal committees of the Legislature. (3) Existing law requires the Controller to pay reimbursement on any claim the commission has determined constitutes a state mandate, as specified. This bill would require the Controller, when paying any claim for reimbursement, to credit the amount of any state or federal funding available to the claimant for the mandate as an offset to the amount of the claim.

Cal-Health program

Existing law provides various programs to provide health care services to persons with limited incomes who meet various eligibility requirements. These programs include the Healthy Families Program administered by the Managed Risk Medical Insurance Board and the Medi-Cal program
administered by the State Department of Health Services. This bill would create the California Health Care Program (Cal-Health) to coordinate the Medi-Cal and Healthy Families programs for the purpose of reducing administrative costs. The bill would require the department and the board to carry out the duties and functions of the program. The bill would require, by July 1, 2005, the state to submit a federal waiver under the federal Social Security Act or exercise other options under federal law to permit providers to screen and temporarily enroll children, parents, and other adults who meet initial screening requirements into the Medi-Cal and Health Families programs. The bill would require the department and board to report their recommendations to the Legislature by March 1, 2005, to make various procedures the same for the Medi-Cal and Healthy Families programs. Existing law requires the department, to the extent federal financial participation is available, to adopt less restrictive income and resource eligibility standards to determine eligibility for Medi-Cal benefits. This bill would revise eligibility standards under the Medi-Cal Program by exempting specified resources from consideration.

AB 2158 Lowenthal

*Housing elements: regional housing need*

Existing law requires each city, county, or city and county to prepare and adopt a general plan for its jurisdiction that contains certain mandatory elements, including a housing element. One part of the housing element is an assessment of housing needs and an inventory of resources and constraints relevant to meeting those needs. The assessment includes the locality's share of the regional housing need. That share is determined by the appropriate council of governments, subject to revision by the Department of Housing and Community Development. A city, county, or city and county is required to submit a draft housing element or draft amendment to its housing element to the department for a determination of whether the draft complies with state law governing housing elements. This bill would revise the procedures for determining shares of the existing and projected regional housing need for cities, counties, and subregions at all income levels, as specified. By imposing additional duties upon local officials, this bill would create a state-mandated local program.

*Status:* CHAPTERED (9/22/04)

AB 2264 Chavez

*General plan: housing element*

Existing law requires the housing element of a city or county general plan to contain an assessment of housing needs, including an analysis of available governmental subsidy programs relative to preservation of affordable housing, and a program to implement the policies in the housing element. This bill would require that analysis and program to also identify available private funds.

*Status:* In Asm. Housing and Community Development Com. Hearing canceled at the request of author. (last activity 4/15/04)

AB 2348 Mullin

*Housing element: regional housing need*

Existing law requires each city, county, or city and county to prepare and adopt a general plan for its jurisdiction that contains certain mandatory elements, including a housing element. One part of the housing element is an assessment of housing needs and an inventory of land suitable for residential development in meeting a city's or county's share of the regional housing need, including vacant sites and sites having potential for redevelopment, and an analysis of the relationship of zoning facilities and services to these sites. A city, county, or city and county is required to submit a draft housing element or draft amendment to its housing element to the Department of Housing and Community Development for a determination of whether the draft complies with state law governing housing elements. This bill would revise the criteria for the inventory of sites to require sites to be identified that can be developed for housing within the planning period to accommodate that portion of a city's or county's share of the regional housing need for all income levels, as specified. The bill would expand the relocation assistance available to persons displaced by sites identified for substantial rehabilitation. By imposing additional duties upon local officials, this bill would create a state-mandated local program. The bill would also provide that the department is to evaluate a proposed or adopted housing element for substantial compliance with governing state law, and would revise the requirements that may be imposed on a development project that contributes to meeting the regional housing need.

*Status:* CHAPTERED (9/23/04)
AB 2836  Maddox

**Housing**

Existing law, for purposes of various provisions of law relating to housing, defines "persons and families of moderate income" to include persons and families whose income does not exceed 120% of area median income. This bill would, for purposes of provisions of the Planning and Zoning Law relating to housing elements and for purposes of the Building Equity and Growth in Neighborhoods Program, authorize a city, county, or city and county to define "persons and families of moderate income" to include persons and families whose income does not exceed 140% or 200% of area median income if specified conditions are met.

AB 2838  Salinas

**Downpayment assistance: sales of real property**

(1) The existing California Homebuyer's Downpayment Assistance Program administered by the California Housing Finance Agency authorizes funds appropriated for purposes of the program to be used to provide downpayment assistance to first-time low- and moderate-income home buyers that does not exceed 3% of the home sales price. Moneys transferred to the Self-Help Housing Fund by the California Housing Finance Agency for purposes of the program. This bill would authorize, subject to specified limitations, that downpayment assistance to not exceed 6% of the home sales price if provided to first-time low-income home buyers in specified revitalization areas. By authorizing a new purpose for continuously appropriated funds, the bill would make an appropriation. (2) The Leroy F. Greene State School Building Lease-Purchase Law of 1976 prescribes priorities and procedures for the sale or lease with an option to purchase real property by a school district. The law requires a school district to offer to sell or lease with an option to purchase the real property in writing to specified state and local public entities and by public notice to other specified public entities and nonprofit organizations. This bill would require the offer to sell or lease with an option to purchase to be provided in writing to these other public entities or nonprofit organizations only upon the submission of a written request to the school district that the entity or organization be directly notified of the offer. By increasing the duties of local officials, this bill would impose a state-mandated local program.

**Status:** CHAPTERED (9/22/04)

AB 2980  Salinas

**Housing element: self-certification**

Existing law authorizes cities and counties within the jurisdiction of the San Diego Association of Governments to self-certify the revision of its general plan housing element, and makes the self-certified cities and counties eligible for specified state housing funds in the same manner as other jurisdictions. This bill, until an unspecified date, would provide procedures whereby a city or county may elect to participate in alternative production-based certification of its housing element and would make those cities and counties eligible for specified state housing funds in the same manner as other jurisdictions.

**SB 492**

*Housing: funds*

Ducheney

The existing Housing and Emergency Shelter Trust Fund Act of 2002 prescribes the allocation of
bond money deposited in the Housing and Emergency Shelter Trust Fund by, among other agencies,
the Department of Housing and Community Development. Existing law authorizes any city or
county within the jurisdiction of the San Diego Association of Governments, until June 30, 2009, to
self-certify its general plan housing element, as prescribed, and makes those cities and counties that
are self-certified fully eligible, until January 1, 2010, to participate in any program created by, or
receiving funds through, the Housing and Emergency Shelter Trust Fund Act of 2002 in an identical
manner and to the same degree as those local jurisdictions deemed in substantial compliance with the
requirements relating to housing elements that are reviewed by the department rather than being self-
certified. This bill would extend the authority for that self-certification until June 30, 2010.

**SB 1145**

*Tenancy*

Burton

(1) Until January 1, 2006, existing law requires that if a landlord increases the rent of a month-to-
month tenancy in excess of 10% of the amount of the rent charged to a tenant annually, as specified,
the landlord shall provide an additional 30 days' notice, for a total of 60 days, prior to the effective
date of the increase, except as specified. This bill would delete the sunset date on the above
provision, thereby extending that provision indefinitely. (2) Existing law requires that a landlord
provide specified statements to a tenant if an initial inspection prior to the termination of a tenancy is
requested by the tenant. This bill would modify that list of statements to delete a required statement
regarding a claim of security. (3) Existing law authorizes an owner of residential real property to
establish the initial and subsequent rental rates for a dwelling or unit, upon specified circumstances.
This bill would make nonsubstantive, technical changes to those provisions. (4) In a summary
proceeding for the possession of real property, existing law prohibits a court clerk from providing
access to the court file, index, register of actions, and other court records if the defendant prevails in
the action within 60 days after the complaint is filed. This bill would permit a court clerk to provide
access to those records to specified persons, including, but not limited to, a party to the action, or
pursuant to a court order upon a showing of good cause. (5) Any public entity that has in effect any
system of rent control is authorized to subject to specified provisions, accommodations that had been
withdrawn from rent or lease and are again offered for rent or lease, as specified. This bill would
make a nonsubstantive, technical change to a related provision. (6) The Fair Employment and
Housing Act prohibits housing discrimination on the basis of race, color, religion, sex, marital status,
national origin, ancestry, familial status, or disability. Until January 1, 2005, the act also prohibits
discrimination on the basis of a person's source of income, the failure to account for the aggregate
income of coresidents, or the failure to exclude a government rent subsidy from that portion of the
rent to be paid by the tenant in assessing his or her eligibility for rental housing. This bill would
delete the sunset date on the above provision, thereby extending that provision indefinitely.

SB 1188  **Farmworker housing**  
Chesbro

Existing law establishes, among other housing programs, the Workforce Housing Reward Program administered by the Department of Housing and Community Development to provide local assistance for the construction or acquisition of capital assets to cities, counties, and cities and counties that provide land use approval to affordable housing developments, as specified. This bill would require the department to provide the local assistance pursuant to the above described program to cities, counties, or cities and counties that provide land use approval to employee housing, as defined.

**Status:** In Sen. Appropriations. Held in committee and under submission. (last activity 3/11/04)

---

SB 1328  **Housing: tenants: notices**  
Torlakson

(1) Existing law, until January 1, 2011, requires, prior to the anticipated date of the termination of a subsidy contract, expiration of rental restrictions, or prepayment on an assisted housing development, as defined, that the owner proposing the termination, as defined, or prepayment of governmental assistance or the owner of an assisted housing development, as defined, in which there will be the expiration of rental restrictions provide a notice of the proposed change to each affected tenant household residing in the assisted housing development and to the affected public entities. Those defined terms are limited to certain federal subsidy programs. This bill would include additional state, local, or private subsidy programs within the definitions of "assisted housing development," "prepayment," and "termination" and would define "low or moderate income" and "very low income" for those purposes. The bill would also require the notice to contain additional specified information.

(2) Existing law provides that an owner of an assisted housing development shall not sell, or otherwise dispose of, the development in a manner that would result in either (a) a discontinuance of its use as an assisted housing development, or (b) the termination or expiration of any low-income use restrictions that apply to the development, unless the owner or its agent shall first have provided specified entities an opportunity to submit an offer to purchase the development. This bill would delete the conditions specified in (a) and (b), above, thereby extending the prohibition to all assisted housing developments. The bill would limit the prohibition to the sale or disposal of the housing development within a specified 5-year period.

SB 1702  **Housing tax credits**  
Battin

Existing law establishes the California Tax Credit Allocation Committee as the state agency responsible for allocating housing tax credits for purposes of federal law, and requires the Department of Housing and Community Development to determine the regional share of the statewide housing need in connection with the adoption of the housing element of a city or county general plan. This bill would require the committee to allocate the available housing credit to each county in proportion to the need identified by the department in its determination of the regional share of the statewide housing need. The bill would require the committee to adopt regulations to implement this requirement.

**Status:** Referred to Senate Com. on H. & C.D. (last activity 3/11/04)

---

SB 1777  **California Statewide Housing Plan**  
Ducheny

(1) Existing law authorizes a council of governments to charge a fee to local governments to cover the projected reasonable, actual costs of the council in distributing regional housing needs. A city, county, or city and county may charge a fee to support the work of the planning agency and to...
reimburse it for the cost of any fee charged by the council of governments. This bill would instead authorize the city, county, or city and county to charge a fee not to exceed the amount charged in the aggregate to the city, county, or city and county by the council of governments. (2) The existing Employee Housing Act deems employee housing providing accommodations for 12 or fewer employees an agricultural land use for designated purposes. This bill, instead, would deem employee housing consisting of no more than 12 beds in a group quarters or 12 units or spaces designed for use by a single family or household, an agricultural land use for those designated purposes. (3) Existing law requires the California Statewide Housing Plan to include housing development goals for the fiscal year the plan is revised and projected 4 additional fiscal years ahead, as well as goals for the provision of housing assistance for the fiscal year the plan is revised and projected 4 additional fiscal years ahead. This bill would, instead, require the plan to include a description of the statewide need for housing development for the year the plan is revised and projected 4 additional years ahead and would revise the housing assistance goals requirement, as specified.

**Status:** CHAPTERED (9/27/04)

**SB 1818 Density bonuses**

Ducheny

The Planning and Zoning Law requires, when a developer of housing proposes a housing development within the jurisdiction of the local government, that the city, county, or city and county provide the developer with a density bonus or other incentives or concessions for the production of lower income housing units within the development if the developer meets certain requirements, including a requirement that the applicant agree or propose to construct a specified percentage of the total units for specified income households or qualifying residents. Existing law also requires an additional density bonus or additional concession or incentive to be granted to a developer of housing that meets those requirements and includes a child care facility, as defined, subject to specified conditions. Existing law prohibits the legislative body from establishing fees to support the work of the planning agency that exceed the reasonable cost of providing the service for which the fee is charged. This bill would revise the above-described provision to, among other things, require, when a developer seeks a density bonus for a housing development within, or for the donation of land within, the jurisdiction of the local government, that the local government provide a density bonus or other incentives or concessions for the production of housing units and child care facilities, as specified. By increasing the duties of local officials, this bill would impose a state-mandated local program.

### Safety

**AB 50  .50 Caliber BMG rifles**  
Existing law makes it an offense for any person to commit an assault upon the person of another with a machinegun or an assault weapon. Existing law also makes it an offense for any person to commit an assault upon the person of a peace officer or firefighter, as specified, with a machinegun or assault weapon. This bill would expand each of these offenses to include an assault with a .50 BMG rifle, as defined. This bill would include tracking the possession and ownership of .50 BMG rifles in the Prohibited Armed Persons File database, as specified. Existing law makes it an offense, subject to certain exceptions, for any person to manufacture or cause to be manufactured, import into this state, transport, distribute, keep for sale, offer or expose for sale, give, lend, or possess an assault weapon, as specified, and provides a sentence enhancement for anyone who transfers, lends, sells, or gives an assault weapon to a minor, as specified. This bill would extend those provisions to include a .50 BMG rifle. Existing law provides a scheme for registration and issuance of permits in connection with assault weapons. This bill would establish similar provisions for the registration and issuance of permits in connection with .50 BMG rifles. Existing law provides that persons may arrange to relinquish an assault weapon to a police or sheriff's department. This bill would similarly permit persons to arrange to relinquish a .50 BMG rifle to a police or sheriff's department.

Existing law, subject to exceptions, generally requires that purchasers and other transferees of handguns possess a valid handgun safety certificate in order to complete a firearm purchase or transfer. Existing law provides that a handgun safety certificate expires 5 years from the date of issuance. This bill would delete the expiration provisions relative to issuance of a handgun safety certificate.  
**Status:** From Assembly Com. on Pub. S. without further action pursuant to Joint Rule 62(a). (last activity 1/8/04)

**AB 1026  Vehicles: driving-under-the-influence: penalties**  
(1) Under existing law, it is a crime for a person who has 0.08% or more, by weight, of alcohol in his or her blood to drive a vehicle. Under existing law, it is a different crime for a person, while having that amount of alcohol in his or her blood, to drive a vehicle and concurrently do any act forbidden by law, or neglect any duty imposed by law in driving the vehicle, which act or neglect proximately causes bodily injury to any person other than the driver. Existing law requires a court to impose sanctions for a conviction of one of these driving-under-the-influence (DUI) offenses. Existing law imposes increasing sanctions on persons who have previously been convicted of one or more DUI offenses that were committed within 7 or 10 years, as applicable, of the commission of the current DUI offense. This bill would make it a crime for a person who commits a subsequent DUI offense, within 7 or 10 years, as applicable, of a previous DUI offense for which the person was convicted, to drive a vehicle with 0.04% or more, by weight, of alcohol in his or her blood, or, while having that amount of alcohol in his or her blood, to drive a vehicle and concurrently do any act forbidden by law or neglect any duty imposed by law in driving the vehicle, which act or neglect proximately causes bodily injury to any person other than the driver. By changing the definition of a crime, the bill would impose a state-mandated local program. (2) Existing law requires a court to consider a concentration of alcohol in the person's blood of 0.20% or more, by weight, or the refusal of the person to take a chemical test as a special factor that may justify enhancing the penalties in sentencing, in determining whether to grant probation, and, if probation is granted, in determining

**Source:** www.leginfo.ca.gov
additional or enhanced terms and conditions of probation, when a person is convicted of violating specified DUI provisions. This bill would decrease the required blood-alcohol concentration from 0.20% to 0.15%.

**Hancock**

**Alameda County: domestic violence**

Existing law provides for county domestic violence program special funds for the purpose of funding local domestic violence programs. Certain fees payable at the time a marriage license is issued may be collected by the county clerks for deposit into these funds. Existing law requires the collection of fees for certified copies of fetal death or death records and marriage or birth certificates. Existing law authorizes the board of supervisors of a county that has established a county children's trust fund to increase the fee for a certified copy of a birth certificate for purposes of the fund. Existing law, the Contra Costa County "Zero Tolerance for Domestic Violence" Act, authorizes the Board of Supervisors of Contra Costa County, until 2007, to increase fees, up to a maximum increase of $2, for certified copies of marriage certificates, birth certificates, fetal death records, and death records, for the purposes of providing funding for governmental oversight and for the coordination of domestic violence prevention, intervention, and prosecution efforts in the county. The Contra Costa County Board of Supervisors is required to submit a report to the Assembly Judiciary Committee and the Senate Judiciary Committee, by July 1, 2006, regarding the receipt of these fees, the expenditure
of these funds, and the outcomes achieved as a result of certain activities. This bill would authorize
the Boards of Supervisors of Alameda and Solano Counties to make similar fee increases, until
January 1, 2010. The bill would require the board, by July 1, 2009, to submit a report on funds
received and expended in connection with the fee increases, and the outcome of activities associated
with the act, to the Assembly Judiciary Committee and the Senate Judiciary Committee. This bill
would make legislative findings regarding the need for special legislation.

**AB 2431**  
*Steinberg*  
**Firearms**
This bill would add requirements to the procedure for persons to obtain or dispose of their firearms
that are in the custody of a law enforcement agency or court. The bill would require the person to
make application to the Department of Justice for a determination that the person is eligible to
possess a firearm. The bill would provide that knowingly omitting required information or
furnishing fictitious information in connection with the application would be a misdemeanor. The
bill would require law enforcement agencies to determine if a firearm to be returned is stolen. The
bill would prohibit release of a firearm to an applicant by a law enforcement agency or court entity
unless certain criteria are met. The bill would require certain information regarding the applicant and
certain firearms be maintained by the Department of Justice in the Automated Firearms System, as

*Source: www.leginfo.ca.gov*
specified. The bill would authorize the Department of Justice to charge a fee of $20 for firearms eligibility processing, and a fee of $3 for each additional handgun that is processed, as specified. It would authorize a local government to adopt a regulation, ordinance, or resolution setting fees to cover the costs of the seizure, storage, and return of a firearm to a licensed dealer or owner, as specified. The bill would make other conforming changes.

Schools: environmental and endangerment assessments

The existing Leroy F. Greene School Facilities Act of 1998 (Greene Act of 1998) makes funding available to eligible school districts for various purposes related to school facilities. Existing law establishes, as a condition of the receipt of state funding under the Greene Act of 1998, that the governing board of a school district comply with prescribed provisions relating to an environmental or endangerment assessment of a proposed schoolsite prior to acquisition of the site. The evaluation of a proposed schoolsite is required to include the location of the site with respect to population, transportation, water supply, waste disposal facilities, utilities, traffic hazards, surface drainage conditions, and other factors affecting the operating costs, as well as the initial costs, of the total project. The governing board of a school district may not approve a project involving the acquisition of a schoolsite unless it determines the property does not contain a pipeline, situated underground or aboveground, that carries hazardous substances, acutely hazardous materials, or hazardous wastes, unless the pipeline is a natural gas line that is used only to supply natural gas to that school or neighborhood. The governing board of a school district is required to undertake steps to identify any permitted or nonpermitted facility, including railyards, that are within 1/4 of a mile of the proposed schoolsite, that might reasonably be anticipated to emit hazardous air emissions, or to handle hazardous or acutely hazardous materials, substances, or waste. This bill would authorize the governing board of a school district to make a written request to any person, corporation, public utility, local publicly owned utility, or governmental agency for information necessary or useful to make an assessment of a proposed schoolsite or an addition to an existing schoolsite, pursuant to these provisions. The bill would require any person, corporation, public utility, local publicly owned utility, or governmental agency receiving a written request for information to provide a written response within 30 calendar days of receipt of the request or within any additional grant of time given by the governing board of the school district. The bill would authorize a school district to bring a complaint before the appropriate regulatory agency or legislative body for a violation of these reporting requirements.

AB 2828
Cohn

Firearms

Existing law, subject to exceptions, makes it a crime to carry a concealed handgun in a vehicle, as specified. This bill would recast those provisions and change the description of the crime to unlawful carrying of a handgun, as specified. This bill would make it a crime to carry a handgun in a vehicle, subject to exceptions, regardless of whether the handgun was concealed. This bill would also provide additional exceptions to the provisions establishing the crime. Existing law authorizes the sheriff of a county, and the chief or other head of a municipal police department to issue a license to carry concealed, a handgun, as specified. This bill would additionally authorize those local entities to issue a license to carry unloaded and exposed, a handgun, as specified.

SB 914  
**State Department of Health Services: domestic violence prevention grant program**  
The Office of Criminal Justice Planning was abolished in 2003. Existing law requires the Director of Finance to designate an agency or agencies to carry out the functions of the office. The Office of Criminal Justice Planning formerly administered certain grant programs relating to victims of domestic violence and sex offenses. This bill would state the intent of the Legislature that victims' services programs that were administered by the Office of Criminal Justice Planning be temporarily redirected to the Office of Emergency Services, and that certain programs involving domestic violence and sexual assault be permanently consolidated in one office, branch, or department. The bill would revise the administration of certain grant programs relating to victims of domestic violence and sex offenses as collaboratively administered by the Office of Emergency Services and specified advisory committees.  

**Status:** CHAPTERED (9/28/04)

SB 1140  
**Firearms: minors**  
Existing law defines "loaded firearm." Existing law provides that a person commits the crime of "criminal storage of a firearm" if, among other things, he or she keeps any loaded firearm within any premises that are under his or her custody or control and he or she knows or reasonably should know that a child is likely to gain access to the firearm without the permission of the child's parent or legal guardian and the child obtains access to the firearm and thereby causes death or injury, as specified. This bill would remove from the crime of "criminal storage of a firearm" the requirement that the child gain access to the firearm without the permission of the child's parent or legal guardian. Because this bill would expand the definition of an existing crime, it would impose a state-mandated local program.  

**Status:** VETOED (9/20/04)

SB 1152  
**Ammunition**  
Under existing law, it is a misdemeanor to sell ammunition to a person knowing that the person is under 18 years of age, but reliance upon evidence of identity is a defense. This bill would instead provide that it is a misdemeanor to sell ammunition to a person under 18 years of age, but would provide that reasonable reliance upon evidence of identity would be a defense. Existing law generally regulates the sale of ammunition. The bill would also require any person engaged in the retail sale of handgun ammunition, as defined, to record the date, the name, address, and date of birth of the transferee, a thumbprint, and other specified information concerning the transaction, and to make the information available to peace officers, except as specified. A violation of these provisions would be a misdemeanor.  

**Status:** VETOED (8/23/04)

SB 1177  
**School safety plans**  
Existing law encourages a schoolsite council to consider including certain components in its school safety plan when it next reviews and updates its school safety plan. One of these components is the
inclusion of a no guns allowed policy. This bill would additionally encourage a schoolsite council to consider including, when it next reviews and updates its school safety plan, gun violence prevention in health education programs in high schools.

### SB 1694

**Driving under the influence: sanction**

Torlakson

Under existing law, it is unlawful to drive a motor vehicle while under the influence of alcohol, a drug, or both, or 0.08% or more, by weight, of alcohol in one's blood, or while addicted to the use of a drug. There is another crime of driving under the influence of alcohol, a drug, or both, or with 0.08% or more, by weight, alcohol in one's blood, and causing injury to another person. Under existing law, for violations of each of these offenses, commonly known as driving under the influence and driving under the influence causing injury, respectively, (DUI) a court may impose sanctions, as specified. Existing law imposes increased sanctions on persons who have previously been convicted of DUI offenses within 7 years of the commission of the current offense. This bill would substitute a 10-year condition for the 7-year condition as a condition to imposing the increased sanctions on repeat offenders and would make conforming changes. Because this would thereby increase the level of service on local law enforcement agencies, this bill would impose a state-mandated local program. This bill would require a court to order a person who has previously been convicted of either a DUI offense that occurred over 10 years ago or disorderly conduct based on being found in a public place under the influence of alcohol or drugs, and who is currently convicted of a DUI offense to attend and complete that program.

**Status:** CHAPTERED (9/16/04)

### SB 1695

**Alcohol and drug problem assessment program**

Torlakson

Existing law requires a court to order a person to participate in an alcohol and drug problem assessment program, if the person is convicted of a violation of driving-under-the-influence offense that occurred within 7 years of a separate conviction of a driving-under-the-influence offense in which the person was required to attend a licensed program pursuant to a court order and the person failed to comply with the rules and policies of the licensed program, other than a rule relating to the payment of fees. This bill would impose the above required court order based solely on the person being convicted of a violation of driving-under-the-influence offense that occurred within 7 years of a separate violation of a driving-under-the-influence offense that resulted in a conviction, and would remove the requirement that the person had previously been court-ordered to attend a licensed program and had failed to comply with the program's rules and policies.

**Status:** Placed on inactive file on request of Assembly Member Calderon. (last activity 8/27/04)

### SB 1696

**Vehicles: driving under the influence: license restriction**

Torlakson

Existing law requires the Department of Motor Vehicles to immediately suspend, revoke, or record the court-administered suspension or revocation of, the privilege of any person to operate a motor vehicle upon receipt of an abstract of the record of any court showing that the person has been convicted of specified provisions prohibiting driving under the influence (DUI). Existing law prohibits the reinstatement of that privilege until the person gives proof of financial responsibility and proof satisfactory to the department of successful completion of a driving-under-the-influence program, as specified. This bill would prohibit the reinstatement of the person's driving privilege until the proof satisfactory to the department of successful completion of the driving-under-the-influence program has been received in the department's headquarters.

**Status:** CHAPTERED (9/09/04)

### SB 1697

**Vehicles: driving under the influence: driver’s license sanctions**

Torlakson

(1) Existing law requires the Department of Motor Vehicles to suspend the driver's license of any

Source: www.leginfo.ca.gov
person arrested for driving under the influence (DUI). The department, under certain circumstances, is also required to suspend, restrict, or revoke the driver's license of any person convicted of DUI. A court is authorized to order, as a condition of probation for a conviction of DUI, that the defendant's driver's license be restricted, as specified. This bill would consolidate the driver's license suspension, restriction, and revocation functions for DUI arrests and convictions under the department, as revised. The bill would authorize the court to disallow the issuance of a restricted license if the court determines that a person would present a traffic safety or public safety risk if allowed to operate a motor vehicle during a suspension period. The bill would require the court to advise a person convicted of a DUI offense at the time of sentencing that the driving privilege may not be restored until the person provides proof satisfactory to the department of successful completion of a driving-under-the-influence program of the appropriate length required by law, which is based on the blood-alcohol concentration and number of prior DUI convictions. (2) Existing law requires a person ordered to attend a DUI program as a condition of probation under certain provisions to apply to the court or to a board of review, as designated by the court, at the conclusion of the program to obtain the court's order of satisfaction. The program is prohibited from issuing its certificate of successful completion and reporting the completion to the department until the court has granted the order of satisfaction. A failure to obtain an order of satisfaction at the conclusion of the DUI program is a violation of probation. This bill would delete the requirement that the person obtain the court's order of satisfaction at the conclusion of the DUI program.

**Status:** CHAPTERED (9/16/04)

**SB 1698**

**Emergency response liability**

Torlakson

Existing law provides that any person who is under the influence of an alcoholic beverage or any drug, or the combined influence of an alcoholic beverage and any drug, whose negligent operation of a motor vehicle, a boat or vessel, or a civil aircraft, caused by that influence proximately causes any incident resulting in an appropriate emergency response, and any person whose intentionally wrongful conduct proximately causes any incident resulting in an appropriate response, is liable for the expense of an emergency response by a public agency to the incident. This bill would define emergency response for the purposes of these provisions.

AB 392 Montanez

Environmental justice and community-based transportation planning grants
Existing law states that it is the intent of the Legislature to allocate $10,000,000 annually to the Environmental Enhancement and Mitigation Program Fund. Under these provisions, local, state, and federal agencies and nonprofit entities may apply for and receive grants for environmental enhancement and mitigation projects related to the environmental impact of modifying existing transportation facilities or for the design, construction, or expansion of new transportation facilities. This bill would create the Environmental Justice Subaccount and the Community-Based Transportation Planning Subaccount in the State Highway Account, which would be funded from funds transferred to the subaccounts from the local assistance program of the State Highway Account. Under the bill, local agencies, nonprofit entities, metropolitan planning organizations, regional transportation organizations, Native American tribal governments, community-based organizations, public universities, local transportation commissions, port authorities, airport commissions, and similar entities would be authorized to apply for and receive grants from funds appropriated for these purposes, not to exceed $300,000 for any single grant, to undertake environmental justice projects and community-based transportation planning projects meeting specified requirements. The bill would require the Department of Transportation to develop procedures and criteria for submission of projects, which the department would be required to make available to the public, and to evaluate proposals and prepare a list of proposals recommended for funding.

AB 775 Parra

Highways: federal funding of safety projects
(1) Existing federal law provides funding for a number of programs related to projects for the improvement of highway safety and the reduction of traffic congestion, including projects for bicycle and pedestrian safety and traffic calming measures in high-hazard locations. Existing state law authorizes, until January 1, 2005, certain state and local entities to secure and expend the federal funds for these purposes. This bill would change the January 1, 2005, repeal date to January 1, 2008, after which time the federal transportation funds received by the state would be spent for highway purposes other than projects for bicycle and pedestrian safety and traffic calming measures in high-hazard locations. (2) Existing law requires until January 1, 2005, the Department of Transportation, in consultation with the Department of the California Highway Patrol, to establish and administer a "Safe Routes to School" construction program pursuant to federal law and to use federal transportation funds for construction of bicycle and pedestrian safety and traffic calming projects. Under existing law, the Department of Transportation was required to study the effectiveness of the program and to, on or before December 31, 2003, submit a report to the Legislature. Existing law also requires the department to submit an annual report to the Legislature listing and describing projects funded under the program. This bill would extend the operation of these provisions to January 1, 2008. The bill would also require the department to continue studying the program and to report its findings to the Legislature on or before March 1, 2007.
