**Questions & Answers during the Bidders Conference: (Morning & Afternoon Conference):**

1. On the first page of the RFP proposal it indicates responses are due by 2:00pm November 16, 2014, yet on page 14 under the Calendar of Events the response date implies November 6th which date is accurate?

   **Answer:** Responses due - Thursday, November 6, 2014 at 2:00PM.

2. What are the page limits for the RFP including the audit attachments?

   **Answer:** Page limit is 40. Excluding the audit attachments; in other words the audit is NOT part of the 40 pages.
3. Should current contracted agencies submit audit attachments even if documents were previously submitted?

Answer: Yes, please include the audit attachments; they do NOT count toward the 40 page limit.

4. Should the Scope of Work contain core activity objectives?

Answer: Yes, the Scope of Work should contain Core Activity Outcome Objectives; minimal three Core Objectives and minimal three Process Objectives. These objectives must be reasonable, doable, comprehensive and realistic. The Scope of Work will be reviewed during the contract negotiation process; along with the specified target population.

5. Can you please explain the Budget Summary

Answer: The indirect cost is a maximum 15% of the total personnel; via the State requirements. The purchase of food, condoms, test kits, lubrication, or beverages are NOT allowed with these funding dollars. The Budget Justifications should contain a formula for example $500 for mileage. A simple multiplication equation is sufficient.

6. Behavior Interventions (Page 7):

Answer: Refer to the State approved Behavior Interventions listed on Page 7. Agencies can make modifications to a Behavior Intervention or can use a home-grown program (proposal must include curriculum). ARTAS can also be utilized as a Linkage to Care Intervention. These recommendations can be used on high-risk negatives as well as positive clients.

7. Regarding Activities:

Answer: Page 7 under Tier II Activities; Hepatitis C Testing is allowable. Tier I should comprise of 75% of funding and Tier II should include 25% of funding, so if an agency proposals to complete Hepatitis C testing it should be contained within the required funding percentage as outlined in the RFP.

8. RESPECT - refer to letter from the State regarding this interventions:

Answer: CDC is discontinuing the RESPECT interventions; therefore it CAN NOT be included as an option to use for this RFP.
9. Give an example of the incentives with the Target Population:

   **Answer:** An agency that is funded for MSM services can provide an HIV test to female client, after the result is provided an incentive can be given to the female client, however refer her to an agency that provides services for her particular population or refer her to her physician.

10. In the Exhibit (page 5) of the Bid Form regarding the Cost per Unit of Services, can you speak a little more regarding this?

   **Answer:** The column Cost per Unit of Service (A) should be Cost per clients. Make certain the Cost per Client is included in the proposals. The number of clients is up to the agencies per their RFP application. We ask for a breakdown of how many clients and how much per client.

   For example: HIV Testing – 100 clients (B) x $45 per test (A) = $4,500 (C)

   (A) would include the cost of the kit, staff time with benefits, etc.

11. When will OAA move towards the new generation of testing?

   **Answer:** It depends upon the FDA and the State; we aren’t proposing new testing this year, maybe next year depending upon the approval. We are hoping by the end of the three year planning cycle we will have the new test kits.

12. Who falls under the Transgender population?

   **Answer:** This would depend on how the client identifies. Some forms indicate the gender assigned at birth while the identity is different than the gender assigned at birth.

13. Are resumes required?

   **Answer:** Yes, resumes are required; please keep in mind the page limit. Agencies should include in their application the qualifications of the staff to be budgeted; multiply staff can be placed on one page.

14. What will be the format for Social Network Strategies (SNS)?

   **Answer:** The Office of AIDS Administration will provide the tools and as much support as needed to the agencies for SNS.

15. Are Sub-Subs allowed?

   **Answer:** Per guidance from the State OA, sub- subs will not be allowable.
